

KAHN FLAYS JAP DEMAGOGUES

FIRST LADY OF LAND
RARELY SEEN SINCE
PRESIDENT'S ILLNESS

Mrs. Wilson is shown here as she looks today, after a year of the most exciting service, caring for the president during his illness. This is the first picture of Mrs. Wilson in recent months, save those snapped while the president while motoring. It was taken as she was entering St. John's church to attend the funeral of the Swedish ambassador. Mrs. Wilson has appeared in public very rarely, devoting her entire time to the president.

Fight Looms In Senate Over Knox Measure For Peace With Germans

NEW HAMON CASE BEAUTY DISAPPEARS

CAL. WOMAN STRANGELY MISSING

Niece of Dead Oil Magnate Drops from Sight In Sacramento

SACRAMENTO, Dec. 9.—Ruth Walker Hamon, who claims to be the wife of Frank L. Hamon, nephew of the dead Jake Hamon, Oklahoma politician, suddenly dropped from sight here today.

Her employer at a "five to fifty-cent store," said this morning she notified him she was going on a brief vacation and immediately left her job. No one seemed to know where she had gone.

In an interview before she disappeared she stood firm on her statements of yesterday charging the dead millionaire paid Frank L. Hamon, who later became her own husband, \$100 a month to marry Clara Smith, so that Miss Smith could have the name of Hamon.

"This affair is getting too complicated for me," Mrs. Hamon said today. "I don't want to force myself into it. But I do feel that I am entitled to consideration, protection and support."

She reiterated her belief that her husband was in Cuba.

URGES APPREHENSION OF SUPPOSED SLAYER

ARDMORE, Okla., Dec. 9.—County Attorney Russell Brown today wired Sheriff Seth Orendorf at El Paso, Texas, to apprehend Clara Smith Hamon, sought in connection with the death of Jake L. Hamon, millionaire oil man and politician.

Brown's wire was sent following a second message from Orendorf, stating that he knew the hiding place of Clara Smith, but could not act without proper authority from officials here.

C. A. Coakly, member of the law firm of Coakly and Mathers, retained by four prominent unnamed Ardmoreites to defend the accused woman, asserted that he had not received confirmation of the report that a Fort Worth law firm had arranged to have Clara Smith Hamon voluntarily surrender.

"We have absolute pledges of one-half a million dollars bond for Clara Smith Hamon the moment she returns to Ardmore," Coakly declared.

"My firm was retained by four prominent citizens of Ardmore to act for the woman on any charge that might be placed against her within one hour after Hamon died."

FEEL SURE MRS. HAMON NOW IN MEXICO

EL PASO, Tex., Dec. 9.—"Clara Smith Hamon is in Mexico, we feel sure," a local officer declared this morning.

When asked if the woman was any nearer arrest this morning than yesterday, the officer replied: "I can't say. There's nothing on which to issue an arrest warrant."

Sheriff Seth Orendorf today wired for a copy of the complaint filed at Ardmore, Okla., it was learned.

TEXTILE MILLS TO MAKE BIG WAGE CUT

BOSTON, Dec. 9.—Wages of New England textile workers will be reduced twenty-two and one-half per cent within a short time, it was learned today following a meeting here in which practically all textile manufacturers of New England states were represented. Approximately 300,000 will be affected by the wage cut, it was said.

MOTHER AND FOUR CHILDREN POISONED

CASPER, Wyo., Dec. 9.—Mrs. Franklin Wright and four children are near death at their home here from mysterious poisoning. Mr. Wright and Mrs. Wright's mother ate the same food as the five who are critically ill but experienced no ill effects. The two youngest children had ceased breathing when the doctor arrived but were revived.

Early Storms Put Five Foot Coat of Snow On Mountains

SAN FRANCISCO, Dec. 9.—The storm which has been hovering over Northern California for several days continues to add precipitation to the heavy fall already recorded in the valleys and deep snows in the mountain districts. About the bay district and in the Sacramento Valley almost three times as much rain has fallen since the rainy season commenced as had been recorded during the same period last year. There was no snow to speak of in the mountains at this time a year ago, while at present there are five feet of snow that will pack almost as solid as ice during the winter months and melt very slowly next summer, an ideal condition from an irrigation standpoint.

"39" BULLETINS

WASHINGTON, Dec. 9.—A big majority for the bill suspending immigration for two years was indicated in the house today when by a vote of 151 to nine immediate consideration of the measure was ordered.

MARION, O., Dec. 9.—President-elect Harding will retain his senate seat for the present and no immediate action will be taken on the offer of Governor Cox to appoint Senator-elect Frank Willis should Harding desire to resign his senatorial office. It was indicated in a statement from headquarters here today.

S. F. JAP CONSUL TO BE REPLACED, REPORT

SAN FRANCISCO, Dec. 9.—According to the editor of the Japanese American, Tokio has decided to replace T. Ohta, consul general here, with S. Yada, now Japanese consul in London. The change is to be effected next month, it was said. Ohta has been in controversy with one faction of the local Japanese colony, for some time. He admitted planning to return to Japan early next spring, but denied his successor had been named.

MILLERAND UNVEILS VERDUN MEMORIAL

PARIS, Dec. 9.—President Millerand unveiled the memorial monument, "The Trench of Bayonets," at Verdun. The memorial, erected at a cost of more than 500,000 francs, is the gift of the late George C. Rand of Buffalo, N. Y., killed in an airplane accident in France during the war. The monument will become one of the famous war shrines in France, as it is known to every living French soldier as the "Trenches de Bayonnetes," commemorating a section of a trench in which an exploding German shell hurled the line of men and leaving the bayonets alone standing.

MOB RUSHES TROOPS WITH SEIZED LIQUOR

PITTSBURG, Dec. 9.—Four state troopers, assisted by reserves of the Pittsburgh police force, fought for half an hour to disperse a crowd of about 500 persons, which gathered at a warehouse here into which the state police were moving 1275 cases of confiscated liquor. The troopers were forced to use the butts of their riot guns. The crowd dispersed, but quickly reassembled and charged the troopers. A riot call brought police reserves and order was restored.

RAILWAY PAYS GIRL \$7650 FOR LEG LOST

WAUKEGAN, Ill., Dec. 9.—The loss of a leg represents \$7650 to Miss Lillian Tucker, 17, a Highland Park high school girl, who was injured April 2 when an automobile truck in which she and her father, George Tucker, were riding was struck by a Chicago & Northwestern train. She sustained the loss of her right leg and suit for \$10,000 was filed. The case was settled out of court for the amount stated, the railroad also agreeing to pay hospital and doctor fees.

INSURGENTS AND LODGE IN CLASH

Senate Leader Plans to Withhold Action Until Special Session

WASHINGTON, Dec. 9.—Refusal of Senator Lodge, Republican leader of the senate, to sanction introduction and passage of the Knox peace resolution at this session of congress, has started an insurgent movement which may result in presentation of the measure in spite of Lodge's disapproval.

Senators who deem immediate return to a peace status imperative are exerting pressure on Senator Knox to permit one of them to introduce his resolution, which declares the state of war between the United States and Germany at an end.

Knox has thus far declined because he does not wish to run counter to his floor leader's wishes. He is strongly in favor of immediate adoption of the resolution, however.

Lodge informed the insurgents that he does not intend to have anything done with the measure this session. They told him there are enough Democratic votes available to pass the resolution over President Wilson's veto, but Lodge said his plan was to let the whole thing go over until the special session after Harding's inauguration.

Plan War Law Repeal

The insistence of insurgents is based on a desire to get war laws repealed. They want to get rid of the espionage act particularly and they want the return of conditions that would allow American business men to trade unhampered anywhere they can find customers with money to pay for goods.

Lodge was much interested today in reports that President Wilson might re-submit the Versailles treaty. Nothing will be done with it, Lodge made clear. If re-submitted, it will be referred to the foreign relations committee and left there, Lodge indicated.

FEAR TARIFF LAWS MUST STAND FOR YEAR

WASHINGTON, Dec. 9.—Present revenue and tariff laws must continue for a year, Republican leaders of the house agreed today after completing preliminary plans for revision of these two measures.

Representative Fordney, chairman of the ways and means committee, today said congress would be showing good speed if a Republican revenue and tariff law were on the statute books by the end of 1921. He believes that at least nine months will be required in the revision of the tariff.

Because of the long time required for the tariff measure and the necessity of modifying tax laws, strong opposition has developed to Fordney's plan for devoting virtually all of the time of his committee to the tariff for the first nine months of 1921.

Favors Early Action

The opposition, led by Representative Longworth, of Ohio, believes changes in taxes more important than tariff changes.

Hearings on revenue revision under present plans will start next Monday. The recommendation for increased taxes in the annual report of Secretary of the Treasury Houston will come up first.

Apparently Houston's suggestion for repeal of the excess profits tax is the only one upon which committee members agree. Fordney claims there is strong opposition to Houston's proposal to increase the normal income tax rates from four to six per cent and from eight to twelve per cent.

"The present income taxes are too high and ought to be reduced, not

He Follows Close In Footsteps Of President-Elect

MILES G. McCAHILL

Miles G. McCahill, secret service agent, will be in command of the bodyguard of President Warren G. Harding. He is now in charge of the protection of the president-elect.

BUSINESS MEN PLAN FOREIGN TRADE DRIVE

CHICAGO, Dec. 9.—Leaders in industry, finance and agriculture from forty states gathered here today to form a \$100,000,000 corporation to finance foreign trade.

The corporation will be established along lines approved by the American Bankers' association and authorized by the Edge act. Its object will be the "successful maintenance, growth and development of America's foreign trade," as explained by John S. Drum, San Francisco, president of the American Bankers' association, who called the meeting.

The new corporation is expected to give special attention to furthering trade with South America, according to plans proposed, although every great world market for America's products will receive attention.

The first meeting of the conference will be held tomorrow. The final session is expected Saturday.

HOTEL GUESTS FLEE FIRE SCANTILY CLAD

LOS ANGELES, Dec. 9.—Sixty guests of the Hotel California here fled into the chill morning air in scant attire when fire broke out in the building early today. The flames were extinguished after all guests were out of the smoke-filled structure. The damage was small.

CHAPLIN RETURNS TO L. A. FROM NEW YORK

LOS ANGELES, Dec. 9.—Charles Chaplin, "grass widower," is back in Los Angeles today after an absence of several months in New York. During his sojourn in the East his erstwhile wife, Mildred Harris, procured a divorce from him.

"I haven't much to say except that I'm glad I'm back in sunny California," said the comedian. "It was beginning to get frosty when I left New York and I can't tell you what a thrill it gives me to be here."

Chaplin would not discuss his domestic affairs.

TO ASK BILLION FOR RIVERS AND HARBORS

WASHINGTON, Dec. 9.—Congress will be asked to appropriate \$1,000,000,000 for the next decennial period to improve the nation's rivers and harbors, it was decided today by the National Rivers and Harbors congress.

CALIFORNIA SOLON CHARGES AGITATORS MAY BRING ON WAR

WASHINGTON, Dec. 9.—Relations between the United States and Japan are kept unsettled by Japanese agitators and demagogues seeking to stir up hatred against this country, Representative Julius Kahn, of California, declared in a speech to the House today.

He warned that continued activity on the part of the Japanese agitators might lead to war between the two countries.

The people of the Pacific coast object only to large numbers of Japanese laborers coming into their states, but have no objection to the immigration of Nipponese professional men, financiers or students, Kahn said, declaring that the question is not one of racial prejudice.

"We in California know that habits and customs make the Japanese laborers a non-assimilable element in our western states."

Kahn asserted that while Japanese agitators are objecting to the proposed exclusion of Japanese laborers from the United States, their own country has a strict ban on Chinese and Korean labor.

HOWARD AGAIN HEADS NATIONAL FARM BODY

INDIANAPOLIS, Ind., Dec. 9.—J. R. Howard, of Clemons, Iowa, was re-elected president of the American Farm Bureau federation in the closing session of its second annual convention here last night. Howard has been mentioned frequently for secretary of agriculture in President-elect Harding's cabinet.

The new executive board was meeting here today to wind up the business of the convention and to draft definite policies and to prepare for the meeting next year. Members of the board include W. H. Walker, of California.

WILSON BOARD TO AID STARVING CHINESE

WASHINGTON, Dec. 9.—Appointment by President Wilson of a committee to take charge of a campaign for relief of famine in China was announced at the White House today.

Thomas Lamont, of New York City is designated as chairman.

3 FIGHTERS TAKEN IN NEW GIRL CASE

SAN FRANCISCO, Dec. 9.—Three more pugilists were under arrest today, caught in the net of the police roundup of alleged vice gangsters. They are accused of the alleged assault on Elvira Denis, 17 year old girl, reported to the telephone yesterday.

The three men are Louis Williams, James Robinson and "Ping" Rizzo. Along with them Adeline Devenant was held, charged with encouraging their attacks of high feeling over the case.

As a result of high feeling over the case, police are now in progress, police continued their efforts today to rid the city of undesirable. Their efforts were directed particularly toward the district south of Market street where immorality is said to have flourished.

WINS ON FOUL PORTLAND, Ore., Dec. 9.—The scheduled ten-round fight between Boy McCormick, light heavyweight champion of England, and Battling Levinsky of Philadelphia, at the Milwaukee arena last night was awarded to McCormick in the seventh, when he was unintentionally fouled by Levinsky.

VENICE GIRL IS HELD BY TURKS SAYS CABLE

NEW YORK, Dec. 9.—Eleven women and seven men are being detained in Samsoun, by the Turkish nationalists, a cablegram received by the Near East Relief here today stated.

The message was from Colonel James Coombs, director of relief work in Constantinople, who reported all those held were American relief workers. Among those held are Amy Burst, Venice, Cal., and Dr. George Pomeroy, of Burbank.

GIRL BASEBALL NINE WINS CHICAGO HONOR

CHICAGO, Dec. 9.—Athletic authorities who lay stress upon the superiority of young America on the baseball diamond would do well to glance over the record of the Western Electric team, an organization of young women which has just won the season's championship in the Women's League in Chicago. It is the second time in two years that they have made a clean sweep of their opponents. They have been awarded a large silver cup to commemorate their diamond ability. How is this for an all-American line-up? It is the personnel of the team: Marie Hanzl, first base; Libbie Mirovsky, second base; Emma Behnke, shortstop; Clara Nash, third base; Mae Kotelnasky, infield; Minnie Beilenburg, left field; Jennie Jarnek, center field and captain; Minnie Tuma, right field; Barbara Prucha, pitcher; Elsie Komorous, catcher.

TRANSPORT AWARDS EXCESSIVE, CHARGE

WASHINGTON, Dec. 9.—Appearing as witness before the house expenditures investigating committee, Lieut. Otto Rundle, Jr., in charge of the legal branch of the army transport service at Hoboken, N. J., testified that excessive awards had been made by Col. John J. Bradley. The two cases cited were the transports Kroonland and Manchuria. Col. Bradley will be heard by the committee later.

SAN DIEGO DEFEATS RACING CHART BAN

SAN DIEGO, Dec. 9.—Meeting the general opposition of the business interests of the city, the proposed charter amendment prohibiting the publication of racing form charts in newspapers was defeated in the election by about 100 votes.

BEETLE CAUSES GREAT DAMAGE TO TREES

NEW YORK, Dec. 9 — A gray-green beetle has much to do with the present shortage of paper. The beetle is the adult form of the aspen borer, a grub which often destroys whole plantations of the trees that is so essential to the pulp industry. The beetle gnaws a slot in the bark and deposits one or two eggs therein. From these eggs come the trouble-making grubs that gnaw into the heart and sapwood and so rid the tree that the first strong wind snaps the weakened timber. Poplar and aspen—both very fast growing trees, and for this reason very valuable to manufacturers—are the objects of the borer's attacks. The imported Lombardy poplar and the commercial cottonwood of the Mississippi valley are very seldom injured, but all other native varieties are damaged by the grub. In some areas where poplar and aspen predominate, the standing dead, fallen, and dying trees exceed 50 per cent of the total stand. A count made by the United States Department of Agriculture on a two-acre area of aspens in Colorado gave the following figures:

Total number of trees.....	667
Number of living trees.....	260
Number of dying trees.....	34
Number of dead trees.....	340
Number of infested trees.....	33
Deformed trees, 40% of total	

Infestation by the borer is most prevalent between altitudes of 6,500 and 8,000 feet. It has not been found above 9,000 feet. The Department of Agriculture has carried out control experiments in various infested localities, and the experts find that the insect can be controlled, if not entirely eliminated by either of the following methods:

The first consists in destroying the insect by cutting the brood trees. Brood trees are individual trees attacked several years in succession, and are readily identified by the scarred trunks and deformed branches. These are the breeding points of the borer, and a man with an axe can cut and pile 50 such trees in a day. The trees are piled and burned, or split open so that the wood is exposed to the sun.

The other method, not practical in the forest, but applicable to shade trees, is the application of creosote or carbolineum to the egg scars. This should be done in October after the adults have deposited their eggs.

Further information regarding the life history, habits and control of the poplar borer is contained in Farmers' Bulletin 1154, which may be had upon request of the department at Washington, D. C.

EMBEZZLES AND BURNS POSTOFFICE, IS CHARGE

SAN FRANCISCO, Dec. 9 — William Fox, postmaster at Dorris, Cal., has confessed embezzlement of a registered letter containing \$5000 in currency, and to the burning of the post-office to conceal the evidence, according to information received from postoffice inspectors at Klamath Falls, where Fox is under arrest.

Inspectors said Fox had doubled the insurance on the postoffice building a few days before it was burned. They reported recovering from Fox \$3400 of the money taken.

CREW ABOARD MYSTERY STEAMER BELIEVED TO HAVE DIED IN WRECK

NEW YORK, Dec. 9.—A steamer, unidentified, was believed to have sunk off the Delaware Capes last night, according to reports received at the radio station here today.

A message from the steamer Eastern Coast said:

"Have picked up captain and five crew of Losaman."

Naval authorities declared there is no steamer Losaman registered and all efforts to communicate with the Eastern Coast have failed.

COUNTY IS SUED BY CAPTOR OF GIBSON

Fred Lewis, the railroad agent at Topoc, Arizona, who recognized Mose Gibson, the slayer of Roy Trapp of Pullman, when the negro applied at the window of his office for a ticket to Albuquerque, New Mexico, and who telegraphed the information to Needles with a request that officers come and take Gibson into custody, had on file today in the superior court a suit against the county of Orange for the \$500 reward, which was offered by the board of supervisors for the apprehension and conviction of Trapp's slayer.

The suit, brought by Lewis through his attorneys, Eden and Koepsel, follows the rejection by the supervisors of claims submitted by both Lewis and Constable West of Needles, who came to Topoc in response to Lewis' telegram. West claims that he was the man who actually apprehended and arrested the negro.

It is understood that the supervisors rejected both claims in order to be on the safe side. They wished to have one or the other of the claimants bring suit, and thus obtain a decision in the superior court as to who was legally entitled to the reward. It is understood that the county is more than ready to pay the money to whichever one the superior court decides it belongs to.

Lewis was a visitor in Santa Ana about a month and a half ago, when he presented his claim, and employed Eden and Koepsel to represent him. He is slightly lame. He is a former resident of Bolca, and was the preacher of the Community church there for about two years before taking a position with the Santa Fe. His parents live at Downey. He is about 40 years old.

It is not known whether Constable West will appear to press his claim as against that of Lewis. If not, it is understood that the board will let the suit go by default.

INDICT FORTY MORE IN ELECTION PROBE

PITTSBURG, Pa., Dec. 9 — The Federal grand jury, which has been investigating alleged irregularities in the Thirty-first District Congressional primary election last May, completed its work by handing down indictments against forty persons, including Charles Anderson, a member of the Pittsburgh City Council and a Republican leader in the First Ward.

The entire registration board of the first district of the Second Ward also is included in the report of the jury. Last week the jury returned indictments against P. J. Sullivan, a city magistrate and an unsuccessful candidate for the Republican nomination for Congress. It also indicted many election officials, bringing the total to eighty-one.

NEW OUTBREAKS DIM CHANCES FOR PEACE

LONDON, Dec. 9.—Recurrence of fighting between Sinn Feiners and British forces in Ireland was looked for today. Hope of a quick peace appeared to have been lost and the government, by seizing municipal buildings for its officers and concentrating its forces indicated it was making ready for a hard winter campaign.

The Irish office declared Sinn Fein attacks on police had continued throughout the present week. The government also continued its raid on the grounds that Irish republican leaders had not suggested peace.

The breaking off of negotiations was indicated in the announcement of Arthur Henderson and William Adamson that they will not return to Ireland. The two labor members of parliament were confident of a truce on returning from a week's stay in Ireland during which they asserted they were assured Irish leaders wanted peace.

Henderson Offer Rejected

Their report was considered by the cabinet where it was decided the peace feelers had not been thrown out by men qualified to speak for the Sinn Fein. Henderson had offered to return to Ireland as the government's mediator, an offer apparently rejected.

Archbishop Clune, according to reports today, conferred with Premier Lloyd George late yesterday, bringing direct word from Arthur Griffith, acting head of the Sinn Fein. The Northcliffe press declared the prime minister was much impressed by the archbishop's report and that hope of peace still was bright.

It was understood today that a note will be sent Father O'Flanagan asking what authority he holds to negotiate for the Sinn Fein. O'Flanagan was the first to take advantage of Lloyd George's hint that negotiations would be acceptable. O'Flanagan replied to the hint by asking what the premier considered the first necessary step.

The lord mayor of Dublin was reported today to be acting as intermediary in the settlement of the Irish rail strike, caused by the refusal of workers to haul munitions.

S. A. LOOT FOUND IN MYSTERY SUIT CASE

When City Marshal Stegeman of Brea opened a suitcase which had been left about three months ago at a pool hall in Brea by two men who stated that they would return for it in a few days, he found three new overcoats and a sack suit which bore the marks of the Lutz Tailors, Santa Ana.

He communicated with the Lutz company today, and discovered that the clothing had been found missing from a shipment made to them from Los Angeles about three months ago. The articles had apparently been taken while enroute.

It is thought that the thieves left the suitcase at the pool hall in order not to have the goods on them in case they were arrested on suspicion, and that afterward they either got "cold feet," or else thought they were under suspicion and "skipped out" without further ceremonies.

A new telephone without a mouthpiece is called the laryngophone. The transmitter and receiver of the instrument are placed against the speaker's throat.

'TONGUE LASHING' IS GIVEN OFFICER WHO TAGS WOMAN'S AUTO

According to a report on file at the city hall today, a woman who was arrested and given a tag by Officer Heard yesterday for parking inside the red line marking off the restricted fire-plug district at Fourth and Bush streets, gave the officer a severe "tongue lashing" for making the arrest.

The woman protested that she was sitting in the car all the time, and that her friend who was with her had merely gone into a drug store to make a few purchases. When asked how she spelled her name by Officer Heard she stated that it "was too bad the city of Santa Ana could not employ officers who could read and write," and delivered herself of sundry other tart remarks, according to the report made by Officer Heard.

City Marshal Sam Jernigan has instructed city police officers to make special reports of motorists who deliver themselves of "tongue lashings" when arrested for violating city ordinances, or who make threats or attempt to intimidate an officer.

MYSTERY BICYCLE FOUND; MAN JAILED

Ernest Nelson, 18, who was arrested after he had attempted to sell a new, specially equipped Dayton bicycle, said to be worth about \$70, to George Post for \$20, and against whom vagrancy charges were placed, was today given a sentence of thirty days in the county jail by Justice John B. Cox.

City police today were attempting to locate the owner of the wheel, as they are convinced that it does not belong to Nelson, whom they believe to be a professional "hobo" who was enroute to San Diego from Los Angeles when he discovered and took the wheel.

If it develops that Nelson stole the wheel a grand larceny charge will be placed against him and he will be re-arrested as soon as he is released from jail.

Post became suspicious when Nelson wanted to sell the wheel for \$20. Under the pretext of trying it out Post got on the wheel, rode to the city hall, and called a police officer, who put Nelson under arrest.

Nelson claimed that he and his "partner" had bought the wheel for \$20 in Los Angeles, and he bought out his "partner's" share in it and started to go to San Diego. He could not give his "partner's" name. He had no money in his possession when arrested, and would give no account of himself or state where he had ever worked.

The bicycle is a new maroon-colored Dayton, No. A-299-320, model 2-b, with black and red rims, mud guards, a stand, and a speedometer. The owner of the wheel should communicate with the city police at once.

REPORTS AUTO CRASH

An automobile smash-up, reported to be due to fog forming on the windshield, took place at 2 a. m. today when Guy Grosse, driving his machine up Fourth street, struck the rear end of a machine, parked on Fourth near Sycamore, and said to belong to C. H. Eaton. The only damage done to Eaton's machine was a broken trunk rack and the rear of the machine. A smashed radiator and smashed headlights, a bent axle, a broken bumper, and a demolished right fender were reported as the damage to Grosse's car.

SANTA ANA WILL GET ALLOTMENT OF TICKETS

Assurance that Santa Ana is to have an allotment of tickets for the New Year's football game at Pasadena has been given J. C. Metzgar, secretary of the Chamber of Commerce, by R. C. Barton, manager of the Tournament of Roses association of Pasadena, Metzgar stated today.

The allotment may not be as large as Metzgar will want. He has already received more than 100 applications for tickets, and is expecting many more. The ticket situation is explained in the following letter received by Metzgar in reply to one sent by him asking for ticket reservations:

"We are ever mindful of the obligation the Tournament of Roses association owes to the sister communities of Southern California and this has never been lost sight of for an instant. In asking your co-operation in making the tournament a success, we plan to extend to you the co-operation to which you are entitled."

"As you are aware, the demand for seats for the football game between Ohio State and the University of California is unprecedented. Were the grandstands twice as large we probably could not seat all who wish to attend, but in fairness to your community we are arbitrarily withholding from the general sale a share of these seats. Of course, the allotment is not as large as we would like. It could not be, when for every seat there are two applicants."

A. J. Bertonneau, representing the Tournament association, and William Dunkerley, secretary of the Chamber of Commerce and Civic association, have kindly agreed—as soon as the tickets are printed—to call on you in person.

"We want you to know that your people will be cared for as well as possible, and that no tickets as yet have gone out. In fact, in previous years, December 20 is the average date when tickets have gone on sale."

"Mr. Bertonneau and Mr. Dunkerley will let you know in advance when you may expect them and we sincerely trust the best we are able to do will, under the circumstances, prove satisfactory."

INSURGENTS CLASH WITH SEN. LODGE

(Continued from page one)

increased, as soon as possible," he said.

Houston's proposal for a twenty per cent tax on the undistributed profits of corporations met with favor. It is believed this would increase the return of the income taxes by forcing distribution of the profits to stockholders.

Considerable opposition was expressed to the proposal for a federal license tax on automobiles and a tax of two cents a gallon on gasoline. Likewise, there is objection to increasing the number and percentage of petty taxes, such as on theater admissions, jewelry, chewing gum, candy and the like.

DEFER ACTION ON APPEAL OF BUSINESS MEN

WASHINGTON, Dec. 9.—Republican members of the senate finance committee today decided to defer action on the appeal of business men for postponement of income tax payments and for the extension of losses.

Decision to deny the relief asked was reached after a study of a recent statement by Secretary of the Treasury Houston, who said the government could not afford to grant either of the measures requested.

PLAN HOUSE PROBE OF BERGDOLL ESCAPE

WASHINGTON, Dec. 9.—A resolution for an investigation by the house military committee to fix the responsibility for the escape of Grover Cleveland Bergdoll has been introduced in the house.

GUSTLIN POINTS OUT INTEREST IN MUSIC COURSE ANNOUNCEMENT

C. A. Gustlin, president of the Santa Ana Musical association, states that local music lovers will be interested in an announcement of the University of California to the effect that music extension concerts are to be conducted by the university through its department of lectures and concerts.

A course in national music has been offered by the department for 1920-21. The course is made up of illustrated lectures on certain countries alternating with concerts dealing particularly with the music of those countries.

A series of eight or ten entertainments can be provided by the department in those cities that desire the course. A minimum of 200 persons is required to support the course. Musicians believe that the project offers a field for greater opportunities for the musicians of the state.

AUXILIARY TO GIVE BANQUET TO LEGION

Members of Santa Ana post, American Legion, are to be guests at a banquet tonight. Each member may take a guest with him, the guest to be an ex-service man who is not a member of the Legion.

The banquet is given by the Woman's auxiliary of the American Legion. It is to be served at 6:30 o'clock at Odd Fellow's Hall.

The principal address, following the banquet, will be by State Commander B. R. Fitts of Los Angeles.

INTERESTING FRUITS SHOWN IN EXHIBITS

BERKELEY, Dec. 9 — Exhibit of semi-tropical fruits of California at the recent fruit show held on the campus at the University of California under the direction of students of pomology in the College of Agriculture created great interest in the variety of fruits not generally known. These included avocados, dates, per-jubbe, sapote, litchi, pistachio, jubbe (sapote, litchi, pistachio).

This is the place to come for your practical and desirable Christmas gifts. No lady ever has enough wearing apparel, and when it comes from a stock of such character as ours it is doubly appreciated. You will find a substantial reduction on the price of positively every garment in our store.

MAKE YOUR HOLIDAY MONEY GO FARTHER BY ATTENDING THIS SALE

COME ON!

As MacNeir challenged the fighting mob, so does this great motion picture invite comparison with any ever screened for sheer virility of action, intensity of plot, realism in acting and photography. It is a smashing story of two pals who loved the same girl—of a clash between friendship and love—and of a code of honor stricter than any written law. Do not miss this big film.

Births

CHEVERTON—In Los Angeles, Dec. 8, 1920, to Mr. and Mrs. Edward P. Chevertson, a son, Robert Edward. Mrs. Chevertson was formerly Miss Edna Robbins, daughter of Mr. and Mrs. O. M. Robbins of this city.

Deaths

HOLLINGSWORTH—At the residence of M. S. Richards, No. 816 French street, Santa Ana, Dec. 8, 1920, Duane C. Hollingsworth, aged 4 years, son of Mr. and Mrs. F. D. Hollingsworth of this city.
Services will be from the Mills and Winbiger Mission Funeral Home, tomorrow, at 10 a. m.

Today's Citrus Market

NEW YORK, Dec. 9.—Eleven cars oranges and two cars lemons sold. Orange market steady on fancy navels and 50 to 75 cents lower on other grades. Averages ranged from \$2.24 to \$6.89. Highest prices paid for seven boxes of Sterling, \$3.50. Lemon market strong. Averages ranged from \$2.56 to \$3.69. Weather fair, 8 a. m. temperature, 55.

New York Stock Market

NEW YORK, Dec. 9.—Weakness developed early in the trading on the New York stock exchange today. The oil issues were the first to feel this feebleness. There appeared to be nothing back of the movement and traders expected the losses would be made up later.

Mexican Petroleum made a new low at 15 1/2, off 3, which is nearly 29 points below the week's high. Texas Company was off 3-8 at 49 3/4 and Sinclair 1-8 at 25. Steel Common was off 2-5 at 80 1-2; later it sold at 80 2-8. Reading showed strength among the rails, going to 90. Norfolk and Western was off 1-4 at 99 3/4 and Pierce Arrow bid, up 1 at 69.

Other opening prices were: Central Leather 28 7-8, up 1-8; Crucible 90 3/4, off 5-8; Mexican Petroleum 15 1/2, off 3; Willys Overland 5 1-8, unchanged; U. S. Rubber 66 1-8, up 1-8; Texas Pacific Coal and Oil 37, unchanged; U. S. Steel 80 1-2, off 3-8; Reading 89 3/4, up 3-8; Southern Pacific 191 1-2, up 3-4; P. American 79, off 3-4; Corn Products 67 1-2, off 1; Baldwin 94, unchanged; Sinclair 25, off 1-8; Standard 42 3/4, off 1-4; Atlantic Gulf 108 1-2, off 2.

THE CHEERFUL CHERUB

Conventions cramp my sweeping style. Why should I be ruled by custom? Rules were only made, I think, for those who are too weak to bust 'em.

City and County

That the engines, instruments, wings and other damaged parts of the big navy seaplane, wrecked off Newport Beach late Tuesday evening, are to be salvaged and the portions, which were badly wrecked, burned, was the opinion of naval officers who viewed the wreck today. The loss due to the wreck is estimated at \$65,000, it was stated.

There was no change apparent today in the condition of Carl Silvas of El Toro, who is at the County hospital suffering from a severe case of tetanus. Silvas was brought to the County hospital Tuesday evening in a very critical condition. His recovery is considered doubtful.

South Dakota people are to hold a picnic at Bixby Park, Long Beach, Saturday, Dec. 18. E. T. Langley said today that there are many South Dakotans in Orange county who will attend the picnic.

A movement is on foot for the paving of South Van Ness avenue from Camille street to Fairview avenue. A permit to circulate a petition for paving has not been asked of the board of city trustees as yet.

Wells & Bressler will start their mixer and their paving crew to work Monday morning on the pouring of concrete for the pavement of Sycamore street from Washington school to West Washington avenue, excepting in front of the property of three property owners, Robert McPadden, Ed Smithwick and Ira Chandler, who have not signed the contract.

Special Attorney Clyde Bishop read the charter to the board of freeholders at a meeting last night. Only minor changes were made in the document.

Washington school's football team yesterday afternoon scored another victory over Junior high school's second team. The score was 7 to 6.

The annual election of Sedgwick Post, G. A. R., yesterday resulted in the selection of the following: Commander, F. M. Grigsby; senior vice-commander, W. J. Leiser; junior vice-commander, P. E. Newman; chaplain, J. S. F. Wood; surgeon, M. N. Fuller; officer of the day, G. P. Lawrence, quartermaster, J. H. Gulick; officer of the guard, D. Holbrook. H. F. Stone was appointed

HARDING CALLS DEMOCRATS TO CONFERENCE

MARION, Ohio., Dec. 9.—Making good in his campaign promises, President-elect Warren G. Harding is today working on a list of representative women and prominent Democrats he intends to call to Marion to advise him on the League of Nations question.

Among Democrats it is certain that Senator Gilbert Hitchcock of Nebraska, who was President Wilson's spokesman in the senate throughout the treaty fight, will be summoned. Among others will be Senator Shields, Tennessee, who, although a Democrat, was among the irreconcilable treaty opponents.

Senator Harding has not divulged the names of any women he intends to call, but it is likely that Mrs. Raymond Robins of Chicago, and Mrs. Harriet Taylor Upton, of Ohio, will be on the list.

The immediate circle around Harding headquarters is buzzing with gossip as to the next cabinet. Senator Harding, however, is keeping his own counsel for the present and reiterated today that no tenders had been made.

It is probable that the more important places will have been filled early in January in order to give the appointees who face difficult problems, time to familiarize themselves with conditions before they take office.

What is it you must keep after giving it to someone else? Your word—Boys' Life.

Christmas sale at Leipsics.

ed adjutant for the eleventh consecutive year. In ten years he has missed but one meeting of the post.

A new oil company bearing the name of the Bolia Chica Petroleum corporation has completed articles of incorporation here. The directors are Charles A. Boege, Anaheim; F. J. Abbott, George W. Spencer, Claude B. Andrews, C. Lawrence, Bruce D. Forbes and J. C. Gillham, Los Angeles. The capitalization is \$1,000,000. The principal place of business is at Anaheim.

J. J. Thompson, who is making a number of investments in Santa Ana, has purchased the property at 1208 East Second street of Lorenzo H. Craft. The deal was made through E. J. Easton.

Harry Mosbaugh, Mel Smith, C. V. Oldfield, Ralph Shallenberger, Maud A. and Ruth E. Tettebach and J. C. Cook have purchased lots on Balboa Island through the real estate agency of E. J. Easton.

Mary A. Rafferty, a recent arrival here from Forest Grove, Oregon, has purchased of Leonard M. and Harriet E. Eshom a residence at 305 Garnsey street. The sale was made through the agency of E. J. Easton. Mrs. Rafferty is a friend of Mrs. Oclavia Smith, who lives at the corner of Main and Chestnut streets.

MAN JAILED IN THEFT OF LAP ROBE GIVEN SENTENCE OF 60 DAYS

Enrique Nava was today sentenced to sixty days in the county jail by Justice John B. Cox after a petty larceny complaint had been placed against him, charging the theft of two lap robes, one of which was taken from the automobile of F. C. Rowland last night.

Rowland reported to the city police yesterday evening that he had left his car in front of a church, and on coming out had found that his lap robe had been taken. A few moments later Officer John Combs, recently appointed to the city police force to aid in patrolling the railroad yards, encountered Nava in the yards in possession of two lap robes. He immediately arrested him, and brought him in to the police station.

One of the robes was identified as Rowland's. The other was being held today for identification.

BURGLARS GET \$250 LOOT IN MESA HOME

Police officials throughout Southern California were on the lookout today for burglars, who, during the past week, looted the home of R. S. Collingswood, of Costa Mesa, of a number of articles running from an aviator's belt and harness to a phonograph and 70 records and a small oil stove and oven.

The burglary was discovered yesterday by Collingswood upon returning home after a week's absence. Tracks found about the Collingswood home lead officers to believe the loot was carried away in a truck and trailer. The loss is estimated at \$250.

Collingswood is a truck driver running between Santa Ana and Los Angeles. He believes the burglars were persons aware of his movements.

ENGLISH TEACHERS ARE POORLY PAID

LONDON, Dec. 9.—While teachers in America are protesting that their salaries are too small, the British teachers are looking with envy on their more "fortunate" co-workers across the Atlantic.

It is pointed out that the salary of a fully-certified teacher in the elementary schools here—which is about equivalent to the public school in the States—is \$300 per annum for men and \$750 for women. It is possible—in exceptional cases—for the male teacher to reach the dizzy heights of \$1500, but women can only get to \$1200.

"If we are going to have anything like a decent education scheme in this country we have got to begin by offering a standard of living that will attract the best men and women," said the organ of the labor unions, commenting on this situation. "Our present policy is to drive them out of the profession into more remunerative markets."

On dark nights a white light can be seen farther than any other, but on light nights red takes the first place.

Y WORK SHOWING STEADY GROWTH IN COUNTY

The members of the executive committee of the Orange County Young Men's Christian association, meeting yesterday, were enthusiastic over the steady growth of the work and plans for coming activity in this county. Reports showed all bills paid, \$1100 on hand, and pledges being met readily.

There are now thirty-two club and high school Y. M. C. A. organizations throughout the county, including Hi Capistrano and Orange. Competition for the county efficiency cup is creating considerable interest among the clubs, while local organizations are planning to enter for the McDonald cup, offered by the international committee for the largest number of boys passing Bible study examinations. Plans for basketball leagues are developing, while World Outlook week, which is being observed this week among all the clubs, reported a total of \$156 pledged to the work among boys throughout the world.

Of particular interest was the plan for Christmas holiday outings to be held at the Y cabin, above Modjeska's former home in Santiago canyon. A committee, consisting of S. M. Davis, E. E. Campbell and County Secretary Chessum, was authorized to meet the committee of the Long Beach Young Women's Christian association and make final arrangements for the purchase of the cabin as an association week-end and summer home.

A coming event is the visit to Orange county, under the auspices of the Orange county committee, of Dr. Winfield S. Hall, medical teacher, writer and lecturer, and for years a professor in Northwestern University Medical school. He is a lecturer of national reputation. He is an international authority on questions of sex hygiene and eugenics. Dr. Hall will be in the county from January 20 to 24, during which time the committee plans to get him before as many people as possible throughout the county. It was unanimously decided that the quarterly meeting of the county committee should be held when Dr. Hall is here.

GOOD EVENING
 Learning, like money, may be of so base a coin as to be utterly void of use; or if sterling, may require good management to make it serve the purposes of sense and happiness—Shenstone.

THE BORDER ARMY

One of the most pleasing features of the Mexican situation is the prospect of withdrawing the American army from the Mexican border. We have had a large military force along the Rio Grande for so many years now that it seems almost a fixture. It has long been taken for granted that that force, sooner or later, would constitute the vanguard of an army of occupation, intervening to save Mexico from its own chaos. That possibility has shrunk to the vanishing point.

The present administration gives promise of being able, with nothing but diplomatic support from Washington and financial aid from willing American bankers and investors, to restore order, meet obligations and rebuild the nation's industries.

Best of all is the new spirit of friendliness to "gringos" manifested by the Mexican government and reflected by the population. It is this spirit, more than anything else, which offers hope of such peace along the border as will make Mexico a neighbor hardly more troublesome than Canada.

A moderate patrol force will be needed, in any event, to prevent rum-running. That is the penalty a dry country must pay for being sandwiched between two wet countries. But even that should be made easy by co-operation with so reasonable a government as that now installed in Mexico City.

The bulk of the army now strung across from the Gulf of Mexico to the Gulf of California can probably be withdrawn soon, and one more step will have been taken in establishing world conditions permitting a reduction of costly military armament.

COLLEGE GROWTH

Julius H. Barnes, Chairman of the Institute for Public Service, prophesies that there will be \$31,000 college students in the United States in 1950. He bases this estimate on an investigation of 210 colleges of all sizes and of both public and private support. In 1919 there were 248,000 students in the institutions of higher learning.

Every one has observed that the colleges seem to be enjoying boom times this year. Mr. Barnes points out that this condition is not phenomenal and has nothing to do with the war. The annual increase in college attendance lately is identical with the average increase before the war. It is a steady, natural growth due to the fact that education itself stimulates education. The desire for education in America is increasing in a fairly steady manner along with constantly augmented ranks of persons who have had this extra schooling.

It must be true, however, that colleges and universities are showing real vitality and fulfilling their purpose with reasonable success, or this steady growth would not exist. In spite of much larger financial burdens, these schools are managing somehow to keep their plants going, and to make good in the estimation of the undergraduates who crowd their halls and even in the eyes of the hard-headed old outside world.

PAN-AMERICANISM

It was fitting and proper that the last act of Secretary of State Colby, before sailing for South America, should have been a visit to the Latin-American diplomatic corps at the Pan-American Union, and that the last farewells and good wishes should have been spoken by that body.

Secretary Colby's trip to Brazil, Argentina and Uruguay naturally brings to mind the similar and highly successful tour made by Elihu Root as secretary of state more than a decade ago. That was the first big diplomatic step toward closer relations between the United States and the Latin-American republics. The Pan-American Union itself is a testimonial to the strengthening of those relations. The World War brought the North and South Americans still closer together. There is now, for most purposes, a hemisphere presenting a solid front to the rest of the world.

Secretary Colby's visit, in official acknowledgment of the visits of two South American presidents to this country, should add to the cordiality and co-operation already existing. He goes as a messenger of

good will from one American democracy to other American democracies all of which, in spite of differences in language and culture, have this same unifying principle that we call Americanism.

He Knows How

Stockton Record
 There is one way to curb the bootleggers—put them in jail. United States District Judge Maurice T. Dooling knows it. Law abiding and law respecting citizens will heartily applaud Judge Dooling's action in sentencing a San Francisco cafe operator to six months in jail, without an alternative, for selling liquor. The head waiter in the cafe was given three months in jail.

In response to the plea of the defense for clemency, Judge Dooling said: "We got some poor foreigner before us and for his illegal possession of a bottle of wine put him behind the bars. Shall men of large affairs be let off with a fine, amounting to nothing more than the imposition of a license for their bold violation of the statute?"

Let those who seek to make a joke of the prohibition law know that they are playing with fire and that they are apt to get burnt. The activities of the bootleggers in San Francisco are a stench in the nostrils of good citizens. Fines will not deodorize but jail sentences will.

Fine Sentiment

Pasadena Star-News
 The more President-elect Harding speaks in public, the more pronounced becomes the impression that his speech is of the McKinley type. To Virginians, speaking on Sunday in a house of worship after his return from the Panama Canal zone, Mr. Harding struck a high note of religious faith. He said that if he did not believe there is a God to aid mankind, he would not want to assume the responsibilities of the Presidency. From trust in God Mr. Harding turned to trust in the people. "Neither would I want to be President if I did not feel that I would have your help," he said. Then he added an earnest plea for national unity.

I want a united Nation and I want somehow to appeal for that understanding that will have the people of the old Confederacy understand that that's only a memory. . . . We must preserve the majesty of government and of law and these rest on the Constitution. And I want the citizens of Virginia to join the citizens of Ohio and the citizens of Maine to join the citizens of California, in one concord of American union and concordation to the service of our common country."

These are sentiments that are significant, as they doubtless are the keynote of the Harding administration. Throughout his campaign for the Presidency and on several occasions since his election Mr. Harding has stressed his devotion to national harmony and solidarity. He doubtless purposes to do all possible to remove all traces of sectionalism and to establish the unity of the Union.

The New Districts

Riverside Enterprise
 There have been numerous discussions of the plan for re-districting in Southern California, particularly as to the new apportionments for state senatorial districts and congressional districts. So far as Riverside county is concerned, there is no chance for a change in assembly representation, as the population will allow for only one assemblyman as in the past. It is quite probable, however, that there will be a change in the senatorial district boundaries and the lines of the eleventh congressional district. The senatorial district should be reduced in size with a possibility of Orange and Riverside counties being united in a district. An effort is also being made to work out a congressional district that will include the citrus counties and parts of counties such as Orange, Riverside, San Bernardino and the eastern portion of Los Angeles.

Such a congressional district would be feasible on account of the mutuality of interests involved. At present there are controlling centers of population in the eleventh district that have no particular interest in citrus, although the orange and lemon value is greater than that of any other single product of the district. On the other hand, San Diego and Imperial counties have many interests in common and comparatively small citrus acreage. Riverside and Imperial counties have much in common from the standpoint of a senatorial district as the great future development of the two counties is along similar lines and the influence of state irrigation and farming legislation would affect the eastern portions of this county and all of Imperial county about alike.

We should say, therefore, that a logical arrangement would be a senatorial district including Riverside and Imperial counties and a congressional district that would take in the citrus counties and communities as named. Congressional districts can break into county boundaries, while senatorial and assembly districts must take in all of one or more counties but cannot chop counties up.

Editorial Shorts

Spain is said to be undergoing a crisis due to the high cost of living. Perhaps that explains why the bull-fighters recently formed a union.—Boston Transcript.

Somehow most persons seem to hold on to a lingering doubt much easier than they do to a real conviction.—Alameda Times-Star.

A janitor recently inherited a million dollars; but all of 'em talk that way when you ask 'em to turn on more heat.—Atlanta Constitution.

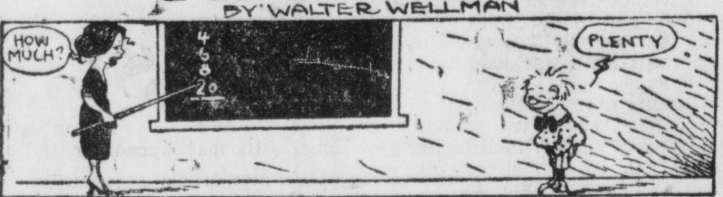

Eastern manicurists are said to be forming a union, but if the proposed organization be effected it is not likely to make a rule against tips.—Sacramento Bee.

Somehow a drop in the price of quinine doesn't give the same thrill as the same drop in the price of eggs.—Stockton Record.

Do Your Hinting Early

FIFTY-FIFTY

Miss Teachum taught the public school where Bobbie was a scholar. She used to swat him with a rule and shake him by the collar, for Bobbie didn't like his books and didn't care to study, and teacher thought from Bobbie's looks his brain was nil or muddy. When asked where the equator was, he'd say 'twas in Alaska; at Indiana he would pause and say, "in Madagascar." When teacher asked the sum of four and six and eight and twenty, he'd fix his eyes upon the floor and calmly say, "it's plenty." In spelling he was simply wild. His head was hard and stony. He said that H-I-D spelled "child," and D-O-G spelled "pony." She whipped the youngster once or twice to see if it would tame him, and then she tried a new device to see if she could shame him. Said she, "You're just the dumbest dope that ever was created; I really fear there is no hope, for you're so empty pated." And, with abuse of verbal sort, she lashed him for an hour, which brought from Bob this sharp retort which made the teacher cower: "You say there's nuthin' in my lid; my brain is thick and cheesy; that I am just a bonehead kid? You'd better go it easy. Do you know how t' bait a hook or load a gun or rifle? Do you know how to set a trap? Yer noodle's swelled a trifle. D'you know how to chop a tree, or break a hen from settin'? Kin youse turn handspins just like me? Y' can't climb trees, I'm bettin' An' kin y' wiggle both yer ears, an' kin y' skin a rabbit? No. All y' know is 'rhythmic; it's got t' be a habit. Y' may know books an' how t' paint an' powder up quite nifty. I've got some learnin' that you ain't. I guess it's fifty-fifty."

Worth While Verses

MANY ARE CALLED

The Lord Apollo, who has never died,
 Still holds alone his immemorial reign.
 Supreme in an impregnable domain
 That with his magic he has fortified;
 And though melodious multitudes have tried
 In ecstasy, in anguish, and in vain,
 With invocation sacred and profane
 To lure him, even the loudest are outside.

Only at un conjectured intervals,
 By will of Him on whom no man may gaze,
 By word of Him whose law no man has read,
 A quelling light may rift the sullen walls,
 To cling where mostly its infrequent rays
 Fall golden on the patience of the dead.
 —Edwin Arlington Robinson in The New Republic.

Today's Talk

By George Matthew Adams

CREDIT AND CHARACTER

A house or great building is built upon a very solid foundation. I have always been interested in watching the start of such an affair. There is a fascination to seeing big rocks or concrete blocks sunk deep into the earth. Because, you see, for years the foundation must bear the greatest strain—holding up all the rest.

It's the same with a man and with his business. The man must have a strong foundation in the right sort of character—and his business must be built and kept upon a solid foundation of credit.

Character gone—a man is at sea, with no port in sight, and with no compass. And in business, with credit weak and untrustworthy, there is no chance for stability or growth.

Trust is the keynote to each. The elder Morgan once stated that he often loaned a million dollars on character alone!

Strong men follow character. Year after year, the believers in Peary followed him across frozen miles—till he achieved the hope of his heart and the ambition of his life.

Credit and character go hand in hand. They are twins! Strive for them both.

Jokes, Joshes and Jingles

Treasure Trove

For some reason the Sunday school class had become interested in Methuselah. At their urgent request the teacher related all the authentic about that amazing man, also various anecdotes gleaned from less reliable sources. In conclusion she said: "Now, is that all? Are there any further questions you would like to ask about Methuselah?"

"I'd like to know," said the most interested youngster of the lot, "where all his birthdays presents are buried."—Galveston News.

The enthusiasm of job hunters for residence in Washington promises to relieve the house shortage in other sections.

If Judge Landis succeeds in his new job, they'll want him at Geneva.

Misunderstanding In Japan

San Bernardino Sun

Recent advices from Japan disclose such misunderstanding of the American attitude towards that country and its people as would amuse did it not alarm. The comprehension of the Japanese government and its statesmen may be accurate or otherwise but, this is not greatly material. The seeds of discord lie in the failure of the people generally to understand that California has no criticism to offer of the Japanese government, its people, their ethics or their culture, but is merely concerned that this state shall not become Asiatic.

Friends of America in Japan feel they are serving this country by launching various movements "to improve American relations" and "cement the ancient friendship between the two countries." Nothing could be further from the fact than any suspicion that the United States feels less than cordial towards Japan or that there has been a rift in the ancient friendship. The American viewpoint is purely racial and economic, and as much may be said of that important section of the United States lying within the boundaries of California.

California's objection to Japanese colonization is but response to the first law of nature. Economic and political self-preservation of the white race on this coast demands the elimination of the Japanese as a social factor. Their fecundity is a challenge to Caucasian supremacy at a day not so far distant; their standards of living render them economic rivals impossible of vanquishment except on a level to which the American cannot, and will not, descend. Simply and irrevocably, the American or the Japanese must go.

It remains possible, notwithstanding these stubborn facts, to entertain the highest respect for the Japanese, for their principles of honor that seem rigid in dealing with one another, for the industry and genius that have earned them the sobriquet of "Yankees of the Orient." As a nation, they may count upon American friendship, and those of their own people who admire America and would serve her can do so no more efficiently than by making these truths clear.

State Aid For Fair

Riverside Press

There has already been some discussion among the directors of the Southern California association regarding the best plan of state aid for the fair and the subject should be given careful consideration. The Press desires to maintain an open mind in the matter, but there are some considerations in favor of local control of the fair that are entitled to be weighed with care.

It has been suggested that the fair be placed under the state board of agriculture that manages the state fair at Sacramento, but that board is made up practically of men all north of Tehachapi whose interests would naturally be with the northern fair. Under that plan the Riverside fair would be definitely designated as a state fair but we should sacrifice the advantage of local control and interest.

The other plan of state aid contemplates an appropriation for several fairs other than the one at Sacramento. A bill along these lines was passed by the last legislature and that provided for an appropriation of \$1000 per year for premiums for each county affiliating with the Riverside fair.

This bill was not signed by the governor because of shortage of funds, but he signified his approval of the general plan and a similar bill would be likely to have his friendly interest this time. Under that system the fair would receive \$5000 or \$6000 a year from the state—possibly more—and would be given definite recognition as a district fair for the southern part of the state.

If that plan should be worked out, the board of directors should be enlarged to include representatives from all the affiliating counties; but the control and management would still be in the hands of men and women who have fostered and developed this great fair and who would be interested in building it up to a still greater position of influence and value. Once the principle of state aid is recognized and aid is established, there should be no special difficulties.

The Church as a School

Minneapolis Journal

It is not altogether a reassuring picture that Professor Hoben of Carleton College gives of the Sunday school in this country. He directs attention to the fact that in the United States twenty-seven million children are without religious education. Twenty-five hours a year measures what Protestant churches now offer their children in religious instruction, and half of the children in touch with these schools attend but half time. The church membership invests annually only five cents per capita in religious education.

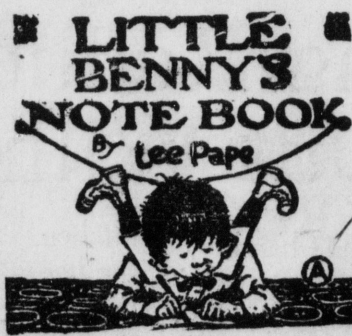

The showing is hardly creditable. But part of the difficulty arises from over-specialization in the thought of religious education. In the past the church was commonly regarded as a storehouse of faith, and the child as an empty vessel into which facts might be poured. But a change has come about in educational methods. The child, it is now recognized, has powers and aptitudes to be developed. The teacher comes, not to have dominion over the mind, but to be a helper and a guide.

If the Sunday school were the only place in which the child developed moral and religious qualities, the present showing would be sad indeed. But fortunately the playground and contact with companions do much to develop in every child an idea of fair play and a sense of honor, courage, loyalty and justice.

There is also in America a cult of family discipline closely akin to religion. It consists in every genuine form of affection, in the morning and evening greetings, in filial respect and thoughtfulness, in deference toward the aged, in courteous and friendly thought and deed toward guests and strangers. These form an atmosphere and spirit of good will and reach beyond the power of book learning or textual teaching.

Possibly also religious education has suffered by being too closely identified with the Sunday school. The fact is that the church, if it realizes its own best ideal, can well be a part of a university for old and young alike. Even young children may be able to feel before they quite understand the full measure of its teaching and spirit. And men never become so old as to need the service of an interpreter to bring their lives into order and a faith that makes faithful.

At least, it is significant that the work of the church in training young and old alike on the side of their idealism and humanity, their faith and hope, is everywhere receiving new recognition. The one great question is, as Professor Hoben sug-

AW BEANS!
 (A play in 4 acts.)
 Act 1.

Boy. Hay ma, would you mind please taking me down town so I can see Santa Claws and tell him wat I want for Christmas?

Boys mother. Wy certeny, the pleasure will be all mine.

Act 2.

Skinny Salvation Army Santa Claws? How do do, boy? Wats you want for Chrissmas if youre a good boy?

Boy. Ice skates, a sled, a drum and gum boots, thanks.

Act 3.

Fat Salivativ Army Santa Claws. Hello there boy. Wat can I do for you this Chrissmas in case youre a good boy?

Boy. Holey smooks, are you Santa Claws?

Fat Salivativ Army Santa Claws. Certeny.

Boy. Well then who was that other guy?

Fat Salivativ Army Santa Claws. Are you going to tell me wat you want or are you going to pass on and give somebody elts a chance, wich?

Boy. Ice skates, a sled, a drum and gum boots, thanks.

Reel Santa Claws. Ah there, boy, anything spechil you want for Chrissmas and if so wat?

Boy. Aw beans!

Reel Santa Claws. Beans for Chrissmas? Haw haw wat a unusual child.

Boy. Youre the 3rd guy told me they was Santa Claws.

Reel Santa Claws. But I reely am.

Boy. Aw beans!

Reel Santa Claws. You can ask your mother if I aht.

Boys mother. How can I tell?

Boy. Aw beans, lets go home, ma. (Wich they do).

Reel Santa Claws. Darn the luck. The end.

Our Selection of House Coats is as big as all Outdoors

It's a rare thing, even at Holiday time, to find so many house coats in one house—but there's a reason for it—

Last Christmas we ran out of coats before we ran out of calls and we vowed that this year we would have plenty of patterns to show right up to the last tick of Christmas Eve.

And from a casual glance—it looks as though we had. As we were saying—the other day when we unpacked them—"the man who wouldn't be satisfied to stay home evenings in one of these—well, he must be of a roaming disposition—that's all there is to it."

THE SOCIAL MIRROR

All-Day Meeting at Presbyterian Church

The Ladies' Aid and the Woman's Missionary society of the First Presbyterian church held a joint all-day session yesterday at the church. The ladies came with needles and thimbles, accomplished a great amount of sewing for the Day Nursery, and made the candy bags for the Sunday School Christmas tree.

At 11 o'clock work was laid aside for the devotionals, which were in charge of Mrs. Chester Kellogg. She read the Christmas story as recorded in the second chapter of Luke, and spoke of the meaning of the Christmas season, especially for this year, with so many starving children in the Far East, looking to America for bread.

Mrs. Thomas Willis sang a beautiful solo, accompanied by Mrs. C. Kellogg at the piano. Dr. C. C. Coffin, representative of the California Dairy association, spoke of the food value of milk. She said the slogan was, "A Glass of Milk for each School Child a Day," and that this was what the association seeks to accomplish.

A short business meeting of the Aid Society followed. At noon the members of the Aid from the northeast section served a delicious luncheon, a number of men accepting the invitation to join their wives at the lunch hour.

At 2 o'clock the Missionary society convened, and after singing the Doxology and being led in prayer by Mrs. R. J. Blee, held a short business session. Mrs. M. B. Youel was chairman of the program for the afternoon.

Mrs. J. A. Stevenson led the devotionals, reading the Thirty-third chapter of Psalms, giving as her theme, "The Wonderful God," speaking of His goodness, and greatness and of His plans for the world.

Mrs. D. A. Bear, was in charge of the foreign topic, "Siam," using a map, she pointed out the missionary stations and in a charming and impressive manner she told of the great work which has been done in that far away country, and the needs, which are calling for greater efforts.

Miss Louise Montgomery delighted her audience with a pleasing solo, her accompaniment being played by Miss Ruth Armstrong. "The Mountaineers," was very instructively given by Mrs. Youel, who told of the people, their surroundings and characteristics. She explained the special help given these people by the schools, supported by the Presbyterian church.

The program was closed by a report from the recent Presbyterian, given by Mrs. Harry Lewis. She gave a synopsis of a talk given by Rev. Pratt, a returned missionary from China.

The meeting closed with the usual benediction.

Judge West Host at Dinner.

Judge Z. B. West and his niece, Miss Estelle Graft, were host and hostess Tuesday evening at Judge West's home at a delightful dinner party given to Mr. and Mrs. Lester Slaback and children, and Mr. Gene Hoff and his mother, Mrs. Dora S. Hoff.

In addition to roast chicken, home-made biscuits and the pumpkin pie made by none other than that peerless culinary artist himself, Judge Z. B. West, were special features of the occasion. Judge West is famous throughout Orange county for his cooking.

According to accounts, not a single demurrer was entered during the entire evening—an unusual record for the best of Judges—at least when on the bench. The dinner is said to have been reported by the two court reporters as par excellence, an opinion which was unanimously concurred in by the ladies and the youngsters.

THE BUSH WITHOUT A FLOWER.

My heart's a tender garden
Where, white and blue,
Grow, like vivid flowers,
The thoughts of you.

Here upon a low branch
A bud of red,
Each day growing sweeter—
A word you said.

A bush—but never blossom
Has grown on this,
But some day it may flower
White

With your first kiss.
—Mary Carolyn Davies.

W. R. C. Tea Friday

The Woman's Relief Corps will hold a tea in G. A. R. hall tomorrow at 2 p. m.

The proceeds of the tea will go to the child welfare work in Orange county.

A good program is being prepared. Fred Ross, the evangelist, will speak and the Rev. and Mrs. Rollins of the Richmond Avenue M. E. church will give some music.

Second Economics Section

A delicious one o'clock luncheon was served yesterday to twenty-four ladies at the home of Mrs. Harry Hanson, who was ably assisted by Mesdames Raynold Miles and Mark Lacy. All members of the Second Section of Household Economics brought their Christmas needwork and each member answered roll call with a Christmas recipe. Each one brought a gift for a child at the Day Nursery. Guests of the club yesterday were: Mesdames Ray Chander, B. L. Colvin and Oliver Halsell.

Cards Out for Whist.

Invitations have been issued for two afternoon whist parties to be given on Wednesday and Thursday of next week by Mrs. Sherman Stevens and Mrs. Horace J. Stevens, of Tustin, at the home of the former.

Turkey Dinner Guests

Bright poinsettias and red carnations made a brilliant setting for a dinner party at the home of Dr. and Mrs. J. I. Clark, last evening. A turkey menu was served, and auction bridge was the diversion after dinner.

Covers were laid for the following:

Mr. and Mrs. Charles S. Kelley, Mr. and Mrs. Parke S. Roper, Mrs. Addie Collins and Ralph Collins, Mr. and Mrs. George S. Briggs and Mr. and Mrs. J. Fred Parsons.

Bridge trophies, first ladies' and gentlemen's prizes, went to Mrs. Addie Collins and Mr. George Briggs, respectively. Both consolation prizes went to Mr. and Mrs. Charles S. Kelley.

Woman's Union Holds Bazaar.

The Woman's Union of the First Congregational church held a successful bazaar and supper in the basement of the church yesterday afternoon.

Many articles of fancy work and wearing apparel were disposed of and the cafeteria supper, in charge of Mrs. E. M. Nealley, was ably handled.

The candy booth, conducted by the Campfire and Sunshine girls, proved a drawing card.

The Ladies' Auxiliary assisted in the work of the afternoon, and the Union members wish to thank all workers and patrons for their aid.

The net proceeds will go to the general fund of the Woman's Union. Mrs. W. H. Sutton, president of the Union, was unable to be present owing to illness.

Schools, Lodges and Societies—Mixed candies, candy canes and chocolates for Christmas—Special prices at The Dragon.

Santa Ana Woman's Club Meeting Held

Delightfully pleasant was the meeting of the Woman's club Tuesday afternoon at the home of Mrs. Katherine Clark, the president. Chrysanthemums, ferns and carnations made the rooms a bower of beauty and good cheer.

Following the order of business, a program of real merit was given, the subject being, "California, Our Own Beloved State," Mrs. C. T. Wells and Mrs. H. Clay Kellogg preparing the various features. "California" was also the topic of roll call, and many interesting things of the resources of the state were told.

The program closed with the enthusiastic singing of "California," a parody on "America," written by Mrs. Wells.

The club accepted with thanks, Mrs. Van Dyke's kind invitation to meet with her, December 21 at her home, 1109 French street.

The following is Mrs. Wells' composition:

"California 'tis of thee,
California by the sea
Of thee we sing;
Land where great men reside
Land of the women's pride,
From every mountain side
Let Freedom ring.

"Dear California best,
Land of the golden west
Thy name we love;
We love thy beach and sand,
Thy auto roads so grand,
Thy climate mildly bland,
All these we love.

"Let music swell the breeze,
And sway the pepper trees
All summer long;
Let woman's club awake,
Of these delights partake
While orange jam they make,
And sing this song.

"California's soil, the queen,
We raise the beet and bean
Here thrift abounds;
Long may our women bright
Be still the state's delight,
Protect and guide them right,
Their praises sound."

Rainbow Circle Program Success.

At the First Christian church last night the girls of "The Rainbow Circle" put on a program of unusual merit. The success of the evening was declared to be due largely to the efforts of Mrs. Roscoe Wilson, who outlined the program.

A musical dialogue, with tableau, in which twenty Sunday school pupils participated, was given. Next was given "Getting Into Society," which was a humorous playlet showing the ambition of some girls to get into society and their final realization that life's real joy is in doing good and helping others.

The piece showed the purpose and work of "The Rainbow Circle," which does much good in helping the needy and is at present caring for a tubercular patient.

The final feature of the program was a musical dialogue with tableau entitled, "Crowning the Sunday School Angel." Those who took part in this were:

Merrill Porter, as Guard; Alla Nealey as the Angel of Order; Lillian Winstrum, as Angel of Literature; Mildred Browning, as Angel of Music; Edna Rash, as Angel of Love, with two cupids, Betty Martin and Kenneth Kingrey; Miss Olga Lockwood, as the Angel of the Word of God.

The organ numbers, rendered by Miss Carrie Seaton, were very appropriate and delightful.

Schools, Lodges and Societies—Mixed candies, candy canes and chocolates for Christmas—Special prices at The Dragon.

CATHOLICS HOLD CEREMONY FOR NUN ST. RITA

Beautiful and interesting ceremonies were those yesterday evening, which marked the blessing and naming of St. Rita's cottage and a pretty statue of this wonderful nun at St. Joseph's Catholic church. The day also marked the fifty-eighth birthday of the beloved pastor, Monsignor Henry Eumelen, and the feast of the Immaculate Conception.

Following the celebration of two largely-attended masses at the church in the morning, Benediction was given in the evening with the re-consecration of twenty-five promoters of the League of the Sacred Heart.

The large audience was then ushered to St. Rita's cottage, the new bungalow of two rooms, recently erected to take care of the increase in attendance at St. Joseph's parochial school. The pretty bungalow had been most attractively decorated for the occasion with streamers made by the tiny tots and with flowers and potted wall ferns. The statue of St. Rita occupies a prominent corner.

Given Seats of Honor
The Rev. Fathers Eumelen, Genest of Huntington Beach, and Peter Carrasco were given seats of honor.

Miss Gertrude Hamann told interestingly of the Immaculate Conception, preceding her talk with a beautiful poem. She said:

"In the Feast of the Conception of the Immaculate Virgin Mother of God, we celebrate the joyful dawning day of mercy.

"About fifty years ago, some of our American bishops gathered in Baltimore and placed the church under the protection of Mary Immaculate. More people have devotion to the Mother of God since this country has been under her protection.

"Since the Civil war many pious souls have hoped that some day a splendid church would rise in this nation, which would be our common monument of gratitude to her, whose holy name has blessed many since Columbus built the first tiny chapel on American soil in her honor.

"This cherished wish is soon to be realized in our National Shrine in honor of Mary Immaculate, that is now being erected in Washington, D. C. This day, dear to every Catholic heart, has an additional meaning to the members of this parish; for it is the natal day of our beloved pastor. And for you, dear Father, we ask with heartfelt earnestness many blessings through the intercession of Mary Immaculate."

Program Interesting
The program was rendered as follows:

Welcome Song School Address Rosalie Doyle
Presentation of gift to Father Eumelen Herbert Myers

"Immaculate Conception" Junior Barnett
"The Rosary" Helen Norton

Bye-lo, Bye-lo Mary Louise Dierker
Josephine Madrid

I'm Not Afraid Ruth Heim
Sleep and Dream Mary Maaz

Recitation Frank Klatt
Little Boy Blue Carroll Owens

"How We Love Our First and Second Grades" Children
Piano Solo, "The Torrent" Leatha Collier

"Evening" 6th, 7th and 8th grades
"The Angel and the Soul" Teresa Knapp

Blessing of the statue and talk by pastor.
School Song.

During his remarks, Father Eumelen spoke of the happiness he felt on the occasion and briefly outlined the marvelous growth of St. Joseph's parish and its school. He said that he was proud to say that he was the first young man from this parish to enter the priesthood and that when he was a boy living here with his parents, he had no idea that when he recited his Catechism lesson, seated upon a pile of lumber, with which the first little church was erected here, he would some day be the pastor of the church.

Father Eumelen paid high tribute to St. Joseph's Sisters, who have built up the school into the institution that it is today.

MORE BOOKS IN HOME IS URGED AS MOTTO FOR CHRISTMAS TIME

"More books in the home" should be the motto for the holiday season, according to Miss Jeannette McFadden, librarian of the Santa Ana public library, today.

The library has secured a collection of books suitable for children of all ages. Many of the books are beautifully illustrated and all are suitable for the home library. The public library will be glad to assist parents in any way possible in the selection of books suitable for Christmas gifts.

This idea is being taken up by a number of libraries throughout this section with the object of encouraging the use of books as Christmas gifts and to awaken a general increase of interest in books generally.

WILSON PEACE TRIP COSTS \$1,703,712

WASHINGTON, Dec. 9.—A special message giving the complete expenses of the American Peace Commission during its work abroad was transmitted to the senate by President Wilson.

Total expenditures amounted to \$1,651,191.09 from Dec. 1, 1918, to Dec. 4, 1920. The amount actually paid out was \$1,703,712.06, but reduced this by \$52,520.97.

Some of the larger sums were: Travel and subsistence, \$28,442; subsistence, \$193,629; salaries, \$200,871; wages and employees at Hotel Crillon, \$131,507; rents, \$176,853; food, hotel and kitchen supplies, \$283,560; hire and laundering of linen at hotel, \$64,969; damage and loss of property at hotel, \$125,870.

Various missions to Russia, Germany, Posen, Turkey, Holland and Armenia cost \$239,726. Purchase of automobiles amounted to \$14,602 and confidential expenses of Presidential party, \$17,534.

Col. E. M. House and Henry White, the statement showed, received monthly salaries of \$1000 as commissioners, while Robert Lansing, former secretary of state, and Gen. Tasker H. Bliss, other commissioners, had their actual expenses paid.

The accounts showed refunds by President Wilson of 914.70 francs for expenses while at Rome; by Col. House of 10,042 francs for official entertainment from Dec. 1, 1918, to June 3, 1919; by Secretary Lansing of 1589 francs for tips, and of large amounts for expenses of the wives of the commissioners.

Allowance for subsistence for employees and attaches, the statement showed, ranged from a few francs daily to \$4 and \$5 for most of the American employees. One item was of \$25 a day to Samuel Gompers, president of the American Federation of Labor.

Rear-Admiral Grayson was credited with frequent drafts of \$1000 and more for "confidential expenses of the president."

Minor items ranged from newspapers and magazines to coal and cigars. The latter, it was said, were bought in America and sold at cost to the commission personnel.

TALK ON BUSINESS GIVEN KIWANIAN

"The biggest job the modern business man has in this world is to put the square deal into it," declared Dr. L. T. Guild of Long Beach, in an address yesterday before the local Kiwanis club. There is more to commerce and trade than a mere effort to make more money than the other fellow, Dr. Guild said.

In the old days of tallow dip lighting systems—when the old oaken bucket was in its infancy—it was possible and practical for a man to live independent of his fellow man if he chose, the speaker said, but he pointed out that "we cannot make our own shoes and overcoats in these days of business efficiency and we must therefore depend upon and co-operate with our fellow tradesmen."

The burden of Dr. Guild's address was "Service." The club members voted the session one of the most helpful of the season.

John Knox was chairman for the day. The attendance prize that Mr. Knox offered was drawn by E. L. Crawford, cashier of the California National bank and proved to be a rear sight mirror, to which was pinned this laconic bit of advice, "Keep your eye on the speed cop."

State Senator-elect Walter Eden was asked to make a short talk touching upon some of the probable activities of the new congress. He said that the increased representation in the United States congress for California would be larger than that of any other state. California, he said, will more likely have four new representatives. He pointed out the desirability of a new congressional district in Southern California. At present, he said, the citrus district is not properly represented. Thrown in as it is with San Diego county, whose interests are entirely unlike those of the citrus district, either one or the other section is likely to be inadequately taken care of in congress, Eden said.

According to the rules of the club, E. L. Crawford, winner of yesterday's attendance prize, will be chairman of next week's meeting.

QUICKLY FORGOT HIS WORRY ABOUT WIFE

CHICAGO, Dec. 9.—Robert Cole is evidently a person of changeable temperament. When his wife left for Nashville, Tenn., recently to visit her parents, he was all wrought up about it and worried about her staying away too long. As he said goodbye at the train, he told her: "Oh, wife, I sure hate to see you go—I'll miss you and the kiddies. Have a nice time, but don't remain away too long."

But his worry about his wife leaving him alone seemed to pass quickly, for he was arrested next day for attempting to elope with 15-year-old Theresa Wendt.

MODERN METHOD OF EDUCATION DISCUSSED

That many modern educational methods and institutions are responding to a demand for practical teaching was declared by two speakers before the Associated Chambers of Commerce last night.

M. A. Honline, of Dayton, O., educational representative of the International Sunday School association, advocated the teaching of live subjects in the public schools, and the fitting of students to vocations to which they are best suited. The teaching of Latin as a method of teaching English was branded by Honline as "educational malpractice."

Emery E. Olson, head of the department of commerce and business administration of the University of Southern California, the first speaker of the evening, said that there is just as much reason for teaching business principles as there is for giving special training for men in professional work.

Study Principles
"The young man who is going into business should know what stocks and bonds are, how banks are run, something about credit relations, something about transportation," he said.

"Some of those things men learn by experience, but in getting experience they often suffer severe losses. The department I represent aims to cut down the losses. The student who graduates from our department knows that he has to start at the bottom. He knows that there is no royal road to success. He can stand the gaff, he will pass the man who has not had the groundwork in business principles that he has."

In opening his address, Honline declared that the world today does not want the man "who can do anything," but it does want the man who can "do something and do it well."

"Every person," he said, "is the product of three things, heredity, environment and education, just as a good crop of corn is the product of good seed, good soil and cultivation." In discussing the influence of heredity, Honline presented statistics concerning the offspring of the feeble-minded.

"Nature sets a limit beyond which man cannot go," he said, in asserting that a child of weak mind cannot be led beyond a point of limitation.

Gives His a Chance
"Education," he said, "does not add anything to an individual; it only releases what is already there. Harvard never made Theodore Roosevelt; it merely gave Roosevelt a chance to make himself. If Harvard could make Roosevelt, it could make 200 Roosevelts every year."

Honline pointed to the value of psychology in fitting students to classes, and in fitting men to jobs. He said that two-thirds of the men at the age of 30 years are in jobs to which they are not best suited. "Some people learn by the eye and some by the ear," he said. "Those who learn by the eye do not learn readily by the ear. Some people stand responsibility, some do not. Some girls can learn algebra, and some cannot, and if I had my way they would not be made to try to learn algebra. Girls like that ought to be given household economics. Some boys cannot learn Latin, and they ought to be given agriculture."

"They used to force mathematics down our throats," continued Honline, "and told us it was some kind of mental gymnastics that was good for us. There are some who still tell us that the way to learn English is to study Latin. That is what I call educational malpractice. The student who confines himself to the study of the English language knows it the best."

Three Big Tests
"There is a probability that the junior colleges will result in doing away with a lot of university training. In the junior college the student gets two years of study, and is at that time within parental control. He can go directly from the junior college to his professional school."

"There are three great tests to be applied to any school system. First, are you providing the pupil with a fund of practical education? Second, are right attitudes being created in the pupil—right attitudes toward himself, his fellows and God? Third, is it modifying his life, changing him to a more desirable citizen? Today every educational subject and system can be measured by those three tests."

FAR FROM THANKLESS
"Don't you find writing a thankless job?"

"On the contrary. Everything I write is returned to me with thanks,"—Friedge Blatter, Munich.

WHEN MEALS DON'T FIT

"Pape's Diapiesin" is the quickest indigestion and Stomach Relief

When meals hit back and your stomach is sour, acid, gassy, or you feel full and bloated. When you have heavy lumps of pain or headache from indigestion. Here is instant relief!

Just as soon as you eat a tablet or two of Pape's Diapiesin, all the dyspepsia, indigestion and stomach distress caused by acidity ends. These pleasant, harmless tablets of Pape's Diapiesin never fail to neutralize the harmful stomach acids and make you feel fine at once, and they cost so little at drug stores.—Adv.

CAL. CELERY GROWERS SUFFER HEAVY LOSS

SACRAMENTO, Dec. 9 — Cold storage celery from Michigan and New York, thrust upon the Eastern markets, knocked the foundation from under California growers' hopes of an increase in price this week. Despite the product from this state being classed as a much higher grade than the Eastern cold storage, the price at which the latter is being offered, together with the high freight rates the growers from this section are obliged to meet, made

competition so keen that an increase in the price was impossible.

California growers claim they are producing at a loss, and they had expressed hopes there would be a change in the price level during the past seven days. They based these hopes on the fact that frost was prevalent throughout the New York celery districts, bringing the season there to a close. They thought this would create a shortage, and hence a bigger demand, but they failed to reckon on the cold storage output. The result is that the offerings from here are commanding no higher price than was the case a week ago.

STRIKERS PLAN TO MANUFACTURE PIANO

CHICAGO, Dec. 9 — Striking union piano workers, deadlocked with employers over demands for increased wages, today planned to manufacture their own pianos.

A company has been formed and the strikers will put up \$50,000 to finance the new company. Workers will contribute their first month's wages to put the new firm on its feet.

URGENT SANTA ANA POLICEWOMAN BE NAMED

Santa Ana should have a policewoman.

This is the principal feature of a resolution behind which the members of the Parent-Teachers' association of the Junior high school stood solidly today.

The resolution, which was unanimously adopted late yesterday afternoon, embodies other important features concerning the purpose and ideals of the P. T. A. in the training of children and the co-operation of parents in obviating what is declared to be "the deplorable condition of our young girls and boys being on the streets of Santa Ana at night unchaperoned."

Published statements by Superior Judge R. Y. Williams to the effect that parents should be held liable for the waywardness of juveniles, were largely responsible for the passage of the resolution, which reads as follows:

"Whereas, the purpose and ideals of the P. T. A. are for the better training of children; and, whereas, the judicial and police officers of our city have called attention through the press to the deplorable condition of our young girls and boys being on the streets of Santa Ana at night unchaperoned;

"Be it resolved, that the Parent Teachers' association of the Junior high school of Santa Ana endorse the suggestion of appealing to the parents of this city for their co-operation in protecting the girls and boys from the evils that may result from this condition and;

"Be it further resolved, that we respectfully suggest to the honorable mayor and councilmen of our city, the advisability of the appointment of a policewoman for Santa Ana."

The resolution was signed by Mrs. John Clarkson, Mrs. Ida Webber and Mrs. Charles Carruthers, the members of the resolutions committee.

Dr. C. C. Coffin of the California Dairy council was the principal speaker of the afternoon. He gave an interesting talk on "Milk Sanitation and Child Foods." The importance of this matter was strongly brought out.

Mrs. Earl Morris, district president of the P. T. A., gave an account of her visit to the Los Angeles schools, where she investigated the work among alien children in connection with the Americanization problem.

SILVER FOX DISPLAY
MONTREAL, Que., Dec. 9.—Enthusiasm is pouring in for the first international exhibition of live ranch bred silver foxes, to be held in Montreal at the end of the month under the auspices of the Commission of Conservation.

SHOW MUCH INTEREST IN FARM ACCOUNTING LECTURES BY EXPERT

Much interest is being shown by farmers of Orange county in the demonstrations given in the various farm centers this week by Professor R. V. Wright, farm accounting expert of the State College of Agriculture at Berkeley. Many more than were expected have been attending the meetings and the methods and suggestions given by Professor Wright have been enthusiastically accepted.

Professor Wright will speak at the Cypress Farm Center meeting to be held at the Cypress school at 7 o'clock tonight. La Habra and Tustin are on the schedule for lectures tomorrow. The demonstration at La Habra will be given at 2 p. m., in the school house. The Tustin meeting will be held at 7 p. m., in the Tustin school house.

START WORK PAVING GAP ON S. GLASSSELL

(Special to the Register.)
ORANGE, Dec. 9.—After many months of waiting and as the culmination of three separate proceedings put through by the city board of trustees, work of paving South Glasssell street between the Santiago creek and La Veta avenue, was underway today.

The work is to be done under a state improvement act. The proceedings were resisted by some of the owners of adjoining property. The street has been in wretched condition for months. The city board of trustees of Santa Ana have the contract. Employees of the company today began placing concrete curbs. Monday grading will start. A 50-inch concrete pavement is to be laid. It will have a steel trowel finish, and will be laid from curb to curb. The gap is 650 feet in length.

Try INSTANT POSTUM
ten days instead of coffee; note your feelings and then judge for yourself.

"There's a Reason"

MAJORS PLAN TO CUT OUT LONG TRAINING

NEW YORK, Dec. 9.—Short training trips probably will be an innovation of the preparation for the 1921 major league season.

Miller Huggins, the sawed off manager of the New York Yankees, is the first out with training plans indicating a departure from the custom of long tedious training.

Hugh Duffy, the new pilot of the Boston Red Sox, also says he will not keep his squad at work for a protracted period in the south.

High hotel rates, along with increasing prices of other accommodations are making training seasons very expensive for the managers and from a physical standpoint trainers are becoming convinced that more harm than good results from long working in the spring.

Pat Moran had a lamentable experience last year at Miami, with his Cincinnati Reds. During a long stay in that fashionable place, the Reds found time to do things other than train and it was mid-season before some of them reached form.

Fewer exhibition games between the clubs will be staged this spring. While it has been found a good way to bring in money to help foot the bills the players object to a series of "one day" stands. The New York Giants suffered by their long series of games last spring.

It is also a dangerous undertaking as the Yankees discovered last spring when Chic Fawcett, one of their most promising youngsters, was put out for the season by a pitched ball from Jeff Pfeffer, the Robin fast ball pitcher.

Some few games will be staged, however. The Yankees and the Dodgers will play around Shreveport, where the Yanks will train and Tris Speaker wants the Giants to come to Dallas for some exhibitions with his world champion Indians.

On the subject of spring training, it will be interesting to watch the attitude of Ty Cobb, if he is named manager of the Detroit Tigers, which seems probable now.

Cobb persistently has refused to train in the spring with the club and his attitude was partially responsible for the dissolution of the club.

COBB MAY BE LEADER OF DETROIT TIGERS

DETROIT, Mich., Dec. 9.—Tyrus Cobb, Detroit baseball star, whom President Frank Havin is endeavoring to induce to accept the Tiger management will confer with Havin in New York tomorrow. It was said at Havin's office here today.

More than 2,000,000 barberry bushes were dug up in America last year in the fight against black stem wheat rust.

CANADIAN LEAGUE DELEGATION HITS FRENCH DIPLOMATS

GENEVA, Dec. 9.—Disagreement in the league of nations was emphasized today when the resignation of Honorable Puerrdyon as vice president of the assembly was laid before the session.

The Argentine leader's successor will be selected Saturday with a prospect that the interim will be devoted to lively scrambling for the important post. It is to be assigned to one of the smaller nations if rules adopted at the opening of the assembly are followed.

Argentine's withdrawal from the assembly was more noticeable by Puerrdyon's resignation as an officer. At the same time the assembly was compelled to note another cause of friction—a difference between old and new diplomacy.

With western independence, W. R. Howell, Canadian delegate devoted his time late yesterday to a lashing of European diplomacy.

The French delegates were especially criticized.

On a big liner about 3000 pieces of glass and crockery are said to be broken during each voyage.

COLDS

"Pape's Cold Compound" is Quickest Relief Known

Don't stay stuffed up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks any cold right up.

The very first dose opens clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness. "Pape's Cold Compound" costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!—Adv.

EXPECT 35 WILL ATTEND GAVVY BANQUET

From thirty-five to 40 baseball enthusiasts are expected to attend the fifth annual banquet for "Gavvy" Cravath and "Ernie" Johnson at James's cafe tonight, it was stated today.

An interesting evening is planned, what with speeches scheduled to be made by Cravath and Johnson and by others interested in baseball. J. C. Burke is to be toastmaster.

Among the various baseball celebrities who are planning to attend are "Bob" and "Irish" Meusel, who have been playing with the Fullerton team recently.

President William Lane, of the Salt Lake club, is also expected to be present. The banquet is to start promptly at 6:30.

CANNEFAUX VS. LAYTON
CHICAGO, Dec. 9.—Champion Bob Cannefaux, of San Francisco, will meet Johnny Layton of St. Louis, in the third round of the three-cushion world's championship series here today.

PREMIER'S CABINET FACES CENSURE FOR BIG APPROPRIATION

LONDON, Dec. 9.—An urgent call for support of the Lloyd George cabinet was sent out today when a vote of censure over the appropriations bill was threatened.

The government's bill was to be considered tonight with the assurance that an amendment will be presented by George Lambert, liberal member. Adoption of the amendment would be tantamount to a vote of censure and the cabinet, following custom, would resign.

An effort to take the initiative away from the government's critics was made when the house agreed to debate a motion to bring Lords Northcliffe and Rothermere before the bar of the house to apologize for their campaign against the appropriations, especially the supplementary appropriations asked.

The two lords, both publishers of newspapers, have fought vigorously against the bill.

DEDICATE \$115,000 TEMPLE OF MASONS

(Special to the Register.)
FULLERTON, Dec. 9.—In the presence of 1,000 Masons of Orange county and their wives and friends, the \$115,000 Masonic temple just completed here was dedicated last night.

The exercises were in charge of Samuel E. Burke of Los Angeles, worshipful deputy grand master. A musical and speaking program was part of the evening's festivities. Installation of officers for the Masonic lodge for the coming year was featured.

Yesterday afternoon the new building was open for the inspection of the public, and a great many people availed themselves of the opportunity to look the temple over. It has two stories and a basement, and is ideally equipped for the work of the Masons.

No Finer Gift Than French Ivory

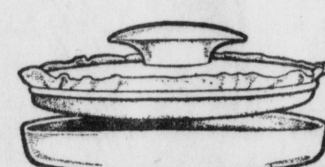

That's what every woman says, and she is right. For this beautiful material is indeed fine when made up into high-grade articles for toilet use. French Ivory is light, yet strong; beautiful though possessed of qualities that admit its everyday use without diminishing its loveliness; creamy white, it matches any dressing table. Every woman covets a set of genuine French Ivory. Give her a set this Christmas; a splendid assortment awaits your selection here.

MIRRORS—MILADY'S FAVORITE

Every woman loves her mirror—she adores it if it is this good French Ivory. For there is something about French Ivory that appeals to the aesthetic taste of milady of the dressing table. Select one of these for her:

Long Handle Bonnet Mirror	\$9.00
Short Handle Bonnet Mirror	\$7.50
Du Barry Bonnet Mirror	\$11.00
Large Round Mirror	\$7.75
Short Handle Round Mirror	\$6.00
Long Handle Spang Back Bonnet Mirror	\$12.00

Renewal Nail Polishes

A good Nail Polisher or Buffer makes a nice gift. These are of genuine French Ivory with removable chamois, which may be renewed at pleasure—chamois held in place by an ivory hoop and there is an ivory boat or tray to fit. Prices, \$1.25 to \$2.25.

Cold Cream and Pomade Jars

Such little adjuncts as these are what makes French Ivory so much desired—you can get most any wanted toilet accessory in French Ivory. Cold Cream Boxes with glass inner jars, \$1.00 to \$2.00. Pomade Jars, 60c to \$1.00.

FRENCH IVORY

Here is something different in Toilet Cases. Fiber-koid cases, lined with pink satin in delicate tints to harmonize with the creamy-white Ivory pieces enclosed. Only one of a kind in these sets—due to the scarcity of the cases. Prices very reasonable.

Dependable Hair Brushes

Bristles are the life of a hair brush. Then, too, what is the use of wasting fine French Ivory blocks on inferior bristles. With this thought in mind we chose the best we could find in hair brushes for our Ivory stock. You will be impressed with their pure bristles and solid Ivory blocks. Prices—

\$4.25 to \$12.50

Cloth and Hat Brushes

They say a good clothes brush will last a lifetime. Certainly that is true of the French Ivory Brushes we offer. The highest grade bristles, securely fastened in massive blocks. Prices—

\$2.50 to \$6.50

Bonnet Brushes

Long, flexible bristles of soft hair that flick the dust off dainty laces and other fabrics. The block is of solid French Ivory with a long graceful handle like the picture. Price—

\$1.25 to \$3.00

NAIL FILES

One of the most used items in the French Ivory list, therefore, should be of good quality. We have selected our French Ivory Nail Files with care; you will find each one to be strong and keen with sturdy handles. Prices, 40c to \$1.00

Its Riding Ease Is a Distinctive Essex Appeal

Isn't the unusual degree of favor Essex finds among women a most natural consequence of its fine appearance and obvious quality, together with its practical independence of repair and adjustment needs?

There Is Reason for This Interest

No motorists have shown more interest and appreciation of fine car quality in the light Essex than have women. They find in it all the performance, comfort and riding ease that they formerly knew only in the big, high-priced cars. And in addition they have such prized advantages as lightness, handling ease safety and economy.

Far more important than its famous records, in the regard of women, is the durability the Essex has shown in the hands of more than 50,000 owners—its positive, day-in-and-day-out dependable transportation.

What Is the Essex Charm?

You will find the Essex surprisingly ample and roomy. But you do not pay the upkeep on weight, on tires and for gasoline and oil that such comfort and spaciousness may hitherto have meant.

Women like the Essex daintiness and beauty. They like its ease of operation and freedom from annoyance. The finest workmanship and pleasing appointments gratify thoughtful good taste.

It is the sort of car you will take pride in owning.

These Essex Records Speak for Its Reliability

Four Essex cars, each break Transcontinental Record, between San Francisco and New York

3057 miles in 50 hours, official record, world's greatest endurance mark.

Same Essex stock car, in 3 tests travels a total of 5870 miles in 94 hours, 22 minutes, averaging more than a mile a minute.

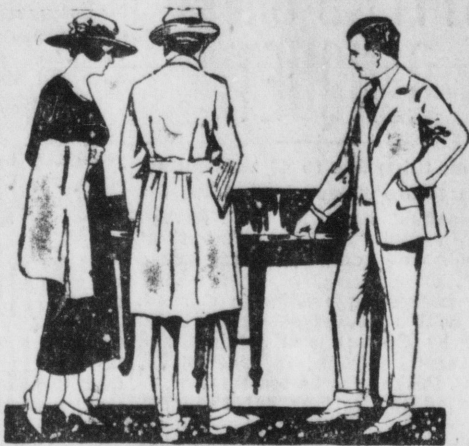

Sets world's dirt track mark, 1261 miles in 24 hours.

Sets world's 24-hour road mark of 1061 miles.

3,000-MILE HUNT ENDS HERE AS MAN IS HELD

A story that began with a society marriage in Chicago a year and a half ago, and which continued in a chase over a dozen states after the husband had been charged with cruelly deserting his wife a few days before their child was born, was brought to a close in Santa Ana today. J. Smith Henry, 27, alleged to be the deserting husband, was on his way to Chicago in custody of a detective.

The chase for Henry covered a distance of more than 3000 miles and its culmination was due largely to the efforts of City Marshal Sam Jernigan.

Henry, whose beautiful wife formerly was prominent in Chicago society, is said to be the son of a prominent banker in a town near Chicago.

Following the husband's alleged brutality and desertion, the Cook county grand jury charged him with willful and cruel abandonment of his wife, and indicted him on a felony charge. Henry had meanwhile disappeared.

Sleuth Takes Up Trail
 His trail was taken up by John D. Connell, chief of the detective bureau of Chicago. Connell first got track of Henry in Reno, where he wired ahead, and had him arrested, and by telegram obtained extradition papers from the Governor of Nevada.

Henry, however, through some conflict between the sheriff's office and the police of Reno, talked his way out of the charge and obtained his freedom. When Connell arrived, Henry had disappeared.

Connell took up the trail again, and finally traced Henry to Santa Ana, where he is said to have relatives. On arrival here Connell got into communication with Marshal Jernigan, who had seen the man here, and quickly discovered his movements.

Henry had left Santa Ana two days before Jernigan left. Connell said that it was a good bet that Henry had gone either to San Diego or Tia Juana. Connell went on to San Diego to take up the trail. Meanwhile Jernigan worked on the case until yesterday, when he obtained accurate information as to Henry's whereabouts in San Diego.

Telephones Connell
 He immediately telephoned Connell, and the latter placed Henry under arrest within an hour.

Connell had personally spent more than five weeks on the road, working on the case, and had traveled thousands of miles before he finally apprehended his man.

Before leaving, Connell wrote a special letter of commendation and thanks to Jernigan, and stated that he was placing a copy of the letter on file as a citation to the police records of the city of Chicago.

Special Dollar Day values at Leipsics, Friday and Saturday.

The glow worm is not a worm, but a beetle.

HOPE BRITISH WILL RAISE BAN AGAINST IRISH COMMISSION

WASHINGTON, Dec. 9.—Hope that the British government will reverse its refusal to give passports for the members of The Nation's commission on conditions in Ireland was expressed today in a letter sent by the unofficial commission to Sir Auckland Geddes, British ambassador.

The refusal, it made final, would seem to imply automatic interference on the part of the government with the free communication of friendly peoples, the latter said.

Mrs. Muriel MacSwiney, widow of the late lord mayor of Cork, was to testify before the commission today. She is expected to tell of her husband's part in the fight for Irish freedom. Miss Mary MacSwiney testified yesterday.

Four former members of the Royal Irish Constabulary also are here to testify. They claim they were threatened with death if they came here.

L. A. YOUTH NABBED HERE AS CAR THIEF

To have recovered an automobile stolen from Los Angeles, and lodged the alleged thief in jail before other Los Angeles police or the owner of the car knew that it was stolen, was a record claimed today by City Marshal Sam Jernigan and his force.

Jack Kelly, 18, of the Park hotel in Los Angeles, a soda dispenser by trade, was taken to the garage, where he took Kelly into custody.

Hare parked his Dort car on Hill street in Los Angeles about noon yesterday, and reported it stolen.

At 3 p. m., yesterday Kelly drove into the Eureka garage, Santa Ana, and, according to the police, sought to sell some tools to Jack Coffman, who became suspicious, and telephoned the city police. Constable Jesse Elliott and Officer John Combs were also sent to the garage, where they took Kelly into custody.

Kelly at first claimed that the car belonged to his uncle, whose name he said was W. L. Hare. He had obtained the name from the operator's license on the dash of the car. Kelly had no money with him, but claimed he had \$2 when he started, but had spent it for four gallons of gasoline. He said he was going to San Diego.

The officers quickly broke down his story. They telephoned to Los Angeles and reported the theft. Kelly had no money with him, but claimed he had \$2 when he started, but had spent it for four gallons of gasoline. He said he was going to San Diego.

Los Angeles officials were expected to arrive here today to take Kelly back to Los Angeles. He is held on a felony complaint.

ZBYSKO DOWNS TAYLOR
 CHICAGO, Dec. 9.—Stanislaus Zbyzsko, Polish wrestler, threw Jack Taylor, Caper, Wyo., twice in two hours 18 minutes here last night. The Pole took the first fall with a crotch hold and a body lock. The second fall was obtained with a crotch and a head lock.

MASONIC NOTICE.
 Called meeting of Santa Ana Chapter No. 73, Royal Arch Masons, Thursday, Dec. 9th, for work in the Mark Masters Degree.
 By order of
 L. M. FORCEY,
 High Priest.
 G. A. WHIDDEN, Secretary.

Start the Victrola "On Christmas Day in the Morning"

Surprise the whole family by putting a Victor record on the new Victrola; usher in the happiest of days to the strains of some familiar and heartening Yuletide carol! The Victrola makes certain a merry Christmas; and it perpetuates your message of good-will for years to come. With Victor records every one in the family can hear just the music of his or her own choice, interpreted by the world's greatest artists. As a gift the Victrola is beyond everything individual. Drop in on us today—let us explain our easy terms.

'LIBRETTO' FOR PAGEANT SOON TO BE READY

The booklets that are to serve the Pilgrim pageant in the same capacity as the libretto of an opera are ready for the printer and are expected to be out for distribution by the first of next week, according to announcement today by Mrs. John Clarkson, general director of the pageant.

The list of those who are to take the parts in the pageant is now almost complete and will be given out as soon as all the parts are definitely assigned. The list is expected to be completed within a few days. A feature of the pageant program is to be the community singing by the audience as it passes from one episode to the next. This is to be led, according to the present plan, by school children. Old hymns, sung by the Pilgrims, will be used. Harry Garstang is drilling the school children of the city in the singing of these old hymns so that they may lead the community singing of each group as it passes from episode to episode.

Rehearsals of the pageant are progressing favorably, according to Mrs. Clarkson, and everything will be in excellent shape for the staging of the pageant December 21.

GREAT SAVING SEEN BY JOINT OPERATION

WASHINGTON, Dec. 9.—Co-ordination of a federation of government activities in the field of public works would save \$80,000, annually, M. O. Leighton told the Rivers and Harbors congress in convention here today.

Leighton, who is chairman of the National Public Works department of the congress, suggested this might be used for waterways.

They All Demand It

Santa Ana, Like Every City and Town in the Union, Receives It. People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have brought lasting relief to thousands. Ask your neighbor! Here is Santa Ana evidence of their merit.

Mrs. E. C. Townner, 1020 N. Van Ness St., Santa Ana, says: "I had attacks of bladder trouble that caused me to suffer a great deal. I became run down and languid. My kidneys acted irregularly, too, causing me a great deal of trouble. I doctored but nothing seemed to help me until I tried Doan's Kidney Pills. Two boxes of Doan's cured me of all signs of the trouble. This was three years ago and I have had no return of the complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Townner had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

LINKS DEMOCRATS TO S. F. BOOZE SCANDAL

SAN FRANCISCO, Dec. 9.—There was quickened interest today in the trial of Harry Brodski, Jules Gamage and Douglas Newton for alleged violation of the prohibition laws, as a result of the testimony of Harry Marquard, cafe proprietor.

Marquard brought yesterday's session of the trial to an interesting conclusion with statements charging that Jack Costello, private secretary of United States Senator Philip of California; Harry Brodski and Lorin A. Handley, former state pro-

hibition director, had made him a proposition to permit him to sell liquor in his cafe here if he would donate ten per cent of his receipts to the Democratic campaign fund.

Marquard himself is under six months jail sentence following a plea of guilty to a charge of violating the prohibition law.

SAYS HE'S NEUTRAL
 CHICAGO, Dec. 9.—Mayor William Hale Thompson told clergymen he was neutral on whether or not to have prayer to open meetings of the city council.

PROFANITY NOT PREVALENT IN CAL., IS VIEW

Are California men and boys less prone to express their feelings with the aid of large, black, sulphurous oaths than are the men of the famous blue-grass regions of Old Kentucky? Is there—or was there—something about the famous Kentucky whiskey and the Kentucky climate that is conducive to language vigorous and profane?

Such would seem to be the case, if local opinion is to be credited.

The following dispatch comes from Lexington, Ky.:
 "One of the first steps in the program of law enforcement, mapped out by the Lexington W. C. T. U. in a campaign launched here, will be the suppression of cursing and swearing on the streets, in the hotel lobbies, cafes and other public places, according to the statement of Mrs. Burt L. Sims, chairman of the movement."

"There is a law on the statute books in Kentucky and also a city ordinance classing swearing, and the use of profanity as an offense, punishable by a fine, but men and boys violate this law hourly, and nobody is ever arrested for it," Mrs. Sims said.

California also has a law similar to the one quoted from the Kentucky statute books, and there is a city ordinance in Santa Ana calculated to put a curb upon the language that might come here from Kentucky or other possibly swarthy regions. Several members of the Santa Ana W. C. T. U. were interviewed on the subject by a Register reporter.

Mrs. W. B. Tedford and Mrs. I. R. Hendrie both expressed the opinion that much more profanity is heard on the streets of the cities of the South than is heard on the streets of California cities, and both declared that they had never heard any profanity on the streets of Santa Ana.

Mrs. John Clarkson also declared that she had never heard an oath on the streets of Santa Ana, but she considered it the duty of the officers to enforce the law, as it is their duty to enforce any other law, and to punish any possible violations. It was the opinion of all three of these women that there were graver problems here in Santa Ana than those due to profanity, citing the sale of cigarettes to minors, and the laxity of parental discipline in regard to children being permitted to roam about the streets at night as matters in which the W. C. T. U. might properly take an interest.

Your dollar will buy useful gifts at Leipsics tomorrow and Saturday.

In Madagascar no home is complete without a household god.

HEWINS VISIONS S. A. AS MECCA FOR TOURISTS FROM EAST

New Hotel's Formal Opening
Now Scheduled for
January 10

THE-DANSANTS PLANNED
Charges Not to Be Exorbi-
tant In Slightest, Says
Manager

"Santa Ana will undoubtedly be-
come a resident-tourist city, just like
Pasadena, Santa Barbara, and River-
side."

That is the opinion that was ex-
pressed today by William Hewins,
manager and lessee of the new tour-
ist hotel.

Hewins is hard at work rounding
the new hotel into shape for the
formal opening, which, according to
present plans, will take place about
January 10. The furniture is on the
way, and some of it is already re-
ported as being in Los Angeles. The
finishing, it is declared, will be the
last word in modern style and taste.

To give some idea of the mag-
nitude of the equipment requirements
of the new hotel, the china service
for the dining room will cost about
\$1500.

Hewins bases his opinion that Santa
Ana will become a resident-tourist
city on his experiences since his
arrival here.

He has had numerous applications,
he stated, from Santa Ana people
who have friends or relatives com-
ing from the East, for whom they
are anxious to reserve rooms in the
new hotel.

In addition to this he said that
he had received a number of in-
quiries from tourists now residing
at various Pasadena hotels, who are
contemplating moving into the new
hotel here to spend the winter be-
cause of the high charges that are
being made by the exclusive hotels
in Pasadena.

Hewins stated that the charges of
the new hotel will not in the least
be exorbitant.
"Of course," he said, "I intend to
give the very best service, and offer
the very best equipment, and the
charges will be such as to cover
these. The prices will not in any
way parallel those of the exclusive
Pasadena hotels, whose equipment
and service are not one jot better
than what I am planning to offer
here."

Hewins said that numbers of Santa
Ana people have informed him that
heretofore their friends who would
ordinarily have preferred to stop in
Santa Ana have been unable to se-
cure hotel accommodations which
(Continued on page ten)

Census Bulletin Shows 38,850 Acres Here In Drainage Districts

According to a bulletin just is-
sued by the Bureau of the Census,
there are 38,850 acres of land in
Orange county organized into
drainage districts.

The bulletin states that of 38-
850 acres organized into districts,
there are 30,250 acres improved
and 8,600 unimproved. The total
cost of drainage enterprises in the
county up to December 31, 1919, is
placed at \$155,000.

In relation to the total acreage
of the county, which is 508,800,
the land drained is 7.6 per cent.

\$1,957,496 VALUE OF 1920 BUILDING

Valuation of 1920 construction in
Santa Ana, as given in building per-
mits issued from the office of City
Building Inspector Thomas Ash, was
raised to \$1,957,496.50 by the \$12-
583.50 valuation set forth in nine-
teen permits issued during the past
week.

Permits for four new dwellings
were included in the number granted
during the past week, bringing the
total number of dwellings for the
year to 364.

The number of permits issued for
building purposes of all sorts since
January 1, 1920, was raised to 924.
Permits were issued during the
past week as follows:

Plan Improvements
Margaret M. Bowers, add screen
porch, 1609 Bush, \$33.50. J. W. El-
liott, builder.

R. F. Shafer, add screen porch,
2215 Bush, \$500. F. J. Homan,
builder.

B. C. Roberts, add screen room to
dwelling, 2608 North Main, \$500. F.
J. Homan, builder.

F. J. Homan, garage, 2604 North
Main, \$500.

C. G. Ramsey, stairs and balcony
in residence, 620 Hickey, \$200.

Charles Anderson, garage-dwelling,
509 South Parton, \$600.

J. E. Livesey, alter and repair
dwelling, 105 Orange avenue, \$600.

Mrs. Cora B. Cavins, convert dwel-
ling into 4 apartments of 2 rooms
each, 316 East Pine, \$3500. E. A.
Noe, contractor.

W. L. Evans, garage, 802 North
Bristol, \$125.

R. Ramsdale, garage, 1131 Or-
ange avenue, \$150.

Build Temporary Shop
William Huff and Rutherford, tem-
porary fire-proof shop, 407 North
Broadway, \$300. J. Simon Fluor,
contractor.

Dr. R. P. Yeagle, garage, 502 Or-
ange avenue, \$350. R. E. Leather-
ton, builder.

J. H. Pullen, protecting roof, 409
North Birch, \$50.

L. O. Vaughan, alter and repair
station, 214 Bush, \$200.

Charles P. Knight, garage, 817
Sycamore street, \$250.

Mrs. Mary P. Bruner, garage, 527
South Birch, \$250. W. S. Decker,
builder.

\$250,000 TO BE RECEIPTS FROM CRATES, TOYS IN RAISING OF ONIONS HERE

S. A. Factory's Business Is
Rapidly Increasing,
Is Shown

For its output of onion crates and
toys the California Crate company
will receive more than \$250,000 for
the fiscal year ending June 30, 1921,
it was stated today by an official
of the firm.

The company's toy business has
trebled over last year. It was stat-
ed, and during the coming year it is
expected that the business done in
this line alone will total \$100,000.

A half million crates, to be used
by onion growers in the Coachella
and Imperial valleys, are being man-
ufactured at the company's plant.
One hundred thousand of the crates
have been completed under contracts
calling for the delivery of the com-
plete half million by June 1, 1921.

Beginning January 1, from 18 to
20 carloads of the crates, which are
collapsible, will be shipped out each
month, and approximately fifteen
carloads of material received.

Forty to be on Rolls
Twenty men are now on the pay-
roll and this number will be in-
creased to forty early in January.

A new paint house, to cost \$2500,
will be built within the next few
weeks, in connection with the toy
department. A considerable amount
of new toy machinery will be instal-
led. The company is now manufac-
turing an attractive line of toys and
games, consisting in all of about
twenty items.

Most of the toys are shipped to
Denver and intermediate points.
One of the newest novelties the
company is manufacturing is a mini-
ature baseball game, invented by J.
A. Cressey, of Santa Ana. Only
100 of these games have been man-
ufactured for the present season, ow-
ing to the amount of work necessary
to install dies and machinery neces-
sary for its production.

The game consists of figurines
representing the players of the
two opposing teams. One set is
red and the other blue. They may
be moved about on the diamond
and they stand on a firm base. The
players are moved according to the
readings on a dial, upon which a
needle turns on a pivot.

Needle is Arbitrator
"Four balls," "three base hit," "out
at first," "steal," "foul strike," and
many other familiar baseball terms
are on the various sections of the
dial and the players are given po-
sitions as indicated by the needle.

It is said that when this game
was taken to Los Angeles for ad-
vice from a lawyer in regard to a
patent, it was left in the office for
several hours. When the inventor
returned, every lawyer on that floor
of the building was in the office
watching the ball game and odds

(Continued on Page Ten)

The story of his agricultural ex-
periences this season, brought to
Santa Ana today by H. H. Middleton,
the "Onion King" of Riverside coun-
ty, has awakened a keen interest in
the onion-growing industry among
several Orange county agricultural-
ists and it is given as their opinion
that a more liberal acreage in this
section will be devoted to this pro-
fitable crop next season.

Hamilton this season planted
eighty-five acres of Spanish Sweet
onions on his ranch eight miles
north west of San Jacinto. He sold
the product of this acreage for \$60-
000, and the land upon which he
raised his crop is not the highest
priced in that district by any means.

From his eighty-five acres this
year he harvested 2,400,000 pounds
of the choicest sort of onions, the
best among them weighing above two
pounds each. The price he received
for this crop was two and a half
cents a pound, probably one of the
lowest market prices offered in re-
cent years. Ordinarily the price of
this variety of onions is a cent or
two above this price but this year's
crop was sold on a declining market
at the time when the break in prices
generally was most keenly felt.

The cost of planting, cultivating
and marketing Hamilton's onion crop
was approximately \$150 per acre, a
total cost of \$12,750. The total cost
subtracted from the money the crop
brought leaves a net profit of \$7,250.
Those are the figures given to
the Register by Hamilton today. He
declared that his acreage devoted
to the same variety of onions next
season will be increased to the limit.

**BIG CONTRACTS FOR
U. S. ARE UNDER WAY**

SAN DIEGO, Dec. 9.—Government
contracts, entailing the expenditure
of approximately \$1,000,000 in perma-
nent construction work at San Diego,
are being fulfilled by Lange & Berg-
strom. Additional permanent construc-
tion work for the navy, valued at
more than \$1,000,000, is under way
by other local and outside contract-
ing firms.

Contracts on which Lange & Berg-
strom are working are as follows:
Reinforced concrete pier at North
Island naval air station; contract
price, \$350,000. This pier, which he
called "T", shaped, 200 feet long. The pier
when additional appropriations are
available, will be extended to 900
feet in length. There will be a
standard gauge railroad track run-
ning the full length of the pier. It
also will be equipped with fresh and
salt water supply, telephone
and fire alarm systems and other
electrically operated cargo-handling de-
vices. The pier will rest on rein-
forced concrete piling, each 60 feet
in length.

Quartermaster's storehouse at ma-
rine brigade post; contract price,
\$211,000. This is a two-story build-
ing and covers an area 280 by 90
feet, or about one-half the size of
an ordinary city block. The entire
structure will be of reinforced con-
crete with hollow tile walls and will
be set on reinforced concrete piling
each 30 feet long. This building
will be equipped with a modern
sprinkling system for fire protection,
electric elevators, and a steam heat-
ing system.

Central building, industrial group,
marine brigade post; contract price,
\$215,000. This will be a one-story
building, "E" shaped, and covers an
area of 112 feet by 172 feet, or about
1.75 acres. The east wing of the
building will contain a completely
equipped barber shop, cobbler shop,
laundry, disinfecting plant and three
electric washing machines. The west
wing will contain a bakery with
electric bake ovens, refrigerating
plant and ice-making machinery.

The central part will contain the
power house, with boiler room for
three large steam boilers connected
by a large flue to the radial chimney
in the rear. This chimney is 125 feet
high.

One kite balloon hangar, two sea-
plane hangars and one storehouse at
North Island naval air station; con-
tract price, \$200,000. Sea-plane
hangar "A" covers a ground area of
112 feet by 91 feet. Sea-plane hang-
ar "B" is 140 by 65 feet. About one-
half the area of this building will be
used for aerial torpedo storage. The
kite balloon shed is 40 feet high, 200
feet long and 65 feet wide. The store-
house is 300 feet long by 100 feet
wide.

**CANADA IS GETTING
HEAVY IMMIGRATION**

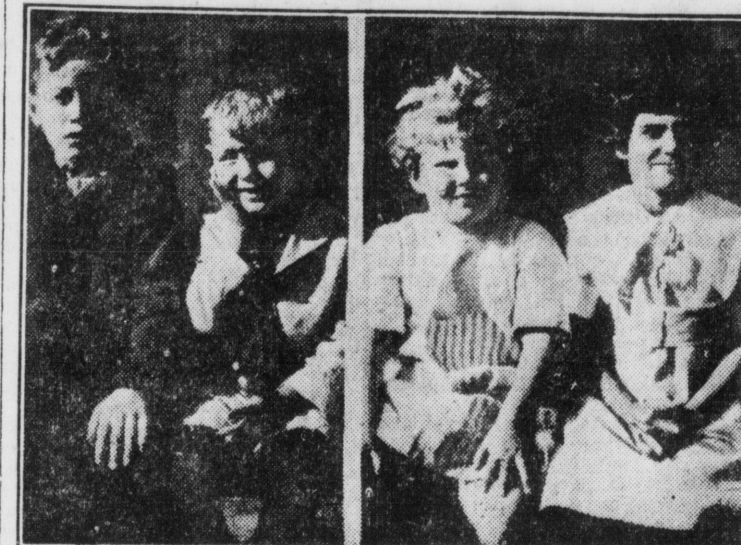

OTTAWA, Ont., Dec. 9.—It is es-
timated that the immigration move-
ment into Canada for the present fis-
cal year will approximate 150,000,
the newcomers being very largely
from Great Britain and the United
States.

The high water mark in Canadian
immigration was reported in 1913,
when 403,436 persons entered the
dominion.

For the first six months of the
present fiscal year Canada's immi-
grants numbered 96,005, an increase
of 38 per cent over the movement for
the corresponding period last year.
In the matter of origin they were
divided as follows: British 52,763;
United States 30,763; others 11,474.

At present the dominion is receiv-
ing a considerable influx of Polish
Jews. These are being examined and
must comply absolutely with the
regulations before being permitted
to come in. Many are being sent
back.

JEFFERSON KIDDIES RESPOND TO 'HUMAN TOUCH' IN TEACHING

On the left is Bruce Tarver of 1906 North Main, and next to him is

ington.

LAND IN COUNTY IS LAUDED BY C. H. WINDHAM

"Anything a man can buy in Or-
ange county at anything like a rea-
sonable figure is a good investment."

This declaration came this week
from C. H. Windham of Long Beach,
former mayor of his city and one
of its best known and most active
of its citizens.

The ex-mayor has been putting his
conviction into action. The Long
Beach Consolidated Oil company, of
which Windham is president, has
just completed the purchase of a
big tide island in Newport bay be-
tween Newport Beach and East New-
port, and there is a possibility that
the company will drill for oil on this
island.

That the island had been sold by
the Pacific Electric was reported sev-
eral weeks ago. Windham, when in
Santa Ana this week, stated that his
company is the purchaser. The Long
Beach Consolidated company is drill-
ing for oil near the Orange County
country club house on the mesa over-
looking Newport bay. The purchase
of the island is taken as indicating
the faith of the Long Beach oil men
in the future of the Newport oil field.

The company is also drilling for
oil near Olive.

That Windham believes that Or-
ange county property is a good in-
vestment is shown by the fact that
he has bought an orange grove in
the new tract just opened in the
Bixby hills at Villa Park.

"Orange county has such a great
variety of resources," said he, "and
its opportunity for growth are so
varied and the possibilities of de-
velopment so great, I believe that
money invested in Orange county
property is bound to be worth while."

**"ROBIN HOOD" GIVEN
PRAISE AT SAN DIEGO**

"Robin Hood," popular light opera,
which is to be presented at the Yost
theater Monday evening, met with
a good reception at San Diego, ac-
cording to a review by the San Di-
ego Union's dramatic critic. Fol-
lowing are a few paragraphs from
the Union's report:

"The best comic opera company
that I have seen in the last 10 years
is Ralph Dumbor's Robin Hood com-
pany, which opened a three days' en-
gagement at the Spreckels theater
last night. It is a real singing or-
ganization, ideally balanced. There is
not one weak spot.

"From Principals to chorus it is a
singing and acting company. It is
one of those productions which in
years to come one will be glad to
look back upon and remember hav-
ing seen.

"And, best of all, the members of
the company went through the opera
as though they enjoyed presenting it.
This gives a sparkle and spontaneity
to the singing and the lines which
lift from the rank of ordinary to the
select class of the unusual perform-
ances."

The sale of tickets for the per-
formance here opened at the Rowley
Drug company store this morning.

**ENROLLMENT INCREASE
60 AT FULLERTON HIGH**

FULLERTON, Dec. 9.—The enroll-
ment of the Fullerton high school
has increased about 60 since open-
ing in September. L. E. Plummer,
principal, stated, Mr. Plummer at-
tributes this to the fact that there
were a number of students who had
not returned from their summer va-
cation when the term opened and
that there has been a considerable
increase in the population coming in
from the east and from other sec-
tions of the state. The enrollment
at the opening of the term was 640.
It is now nearing the 700 mark, Mr.
Plummer said.

Folks — can you really afford to
own a car when you can rent one
without driver for as little as \$3 a
day? 7 1/2 cents a mile. See Cop-
son, 411 W. 4th. Phone 1426.

S. A. NOVEMBER BUILDING PUTS THREE LARGER CALIF. CITIES BACK, SHOWN

Stockton, Bakersfield and
San Jose Outstripped
By Permits Here

TABLE GIVES FIGURES

San Diego Leads In State as
Concerns Proportionate
Increase

Although the valuation given in
building permits issued in Santa Ana
during November was not as great
as the valuation in permits granted
during the same month in 1919, San-
ta Ana, with a total of \$120,728 for
the month just past, outstripped
three California cities—Stockton,
San Jose and Bakersfield—all three
larger than the county seat of Or-
ange county, according to figures
compiled by the California Develop-
ment board.

Santa Ana's November, 1919, total
was \$128,381.

The building total in Stockton for
November, 1919, was given in the
development board's report as \$86-
233 and the 1920 total as \$77,655. In
San Jose the building total for No-
vember of last year was \$118,578 and
this year for November the total was
\$56,815. Bakersfield had \$58,573 in No-
vember last year and \$93,740 in No-
vember of this year. Thus, while
Santa Ana's November, 1920, figures
showed a slight decrease as against
November, 1919, they were still well
above those at Stockton, San Jose
and Bakersfield.

The following table, showing build-
ing valuations in November, 1919,
and November, 1920, has been is-
sued:

City—	Nov. 1920	Nov. 1919
Los Angeles	\$6,267,660	\$5,232,537
San Francisco	1,469,940	2,050,809
Oakland	563,676	595,465
San Diego	918,717	127,187
Sacramento	278,655	288,580
Fresno	312,925	374,933
Stockton	77,655	86,233
San Jose	56,815	118,578
Pasadena	309,304	173,760
Bakersfield	93,740	58,573
Long Beach	\$28,110	\$71,334
Santa Ana	120,728	128,381

San Diego easily gained first place
in the State as far as proportionate
increase is concerned, for last
month's permits total almost six
times as large as in November, 1919.

Long Beach continues to be well to
ward the top of the list with a total
of \$28,110, which ranks fourth in the
State. Pasadena figures prominently
in the Southern California building
boom also, with close to a third of a
million dollars in permits.

**NEW ARRIVALS FIND
HOME AWAITING THEM**

New residents secured by Santa
Ana the last week include Mr. and
Mrs. K. M. Brown and their three-
year-old son. They arrived here in
company with Mrs. Charles Ocain,
who has been on a visit with rela-
tives in the East. Mrs. Brown is a
daughter of Mrs. Ocain.

Spreparatory to the arrival of the
newcomers, Charles Ocain, Regis-
ter advertising man, bought a home
for them at 725 South Cypress
street through the agency of Shaw &
Russell.

Brown has been in the employ of
the General Electric company at
Newark, N. J.

Ladies Hosiery at a saving of 25

SEEKS IRVINE'S O. K. TO TERMS OF FRONTAGE LEASE ASKED BY CRAIG

Harbor Board Secretary to
Leave Tonight to Meet
Land Owner

WALLACE ENTHUSIASTIC

Confidence In Future of
County's Port Voiced by
S. A. People

L. H. Wallace of Newport Beach,
secretary of the Orange County
harbor commission, will leave to-
night for San Francisco, where he
will meet James Irvine for the pur-
pose of negotiating with him for his
signature to the agreement under
which John Craig of the Craig ship-
building company will secure a front-
age of 1000 feet on Newport harbor.

The fact that Craig desires front-
age on the harbor channel has aroused
great interest among people who
have been watching the development
of the county harbor. Those who
have had some doubts as to the fu-
ture of the harbor have had those
doubts dispelled, for they are con-
vinced that Craig is making plans
for big things at Newport.

Negotiations between Craig and
the county harbor board were opened
up a few weeks ago, and have
moved rapidly forward. Craig said
he wanted a lease for a period of
at least fifty years. The county has
possession of a strip of 1500 feet
that was secured from James Irvine
by the city of Newport Beach.

In giving possession to the city, which
turned its rights over to the county,
Irvine restricted the property to leas-
ing for five years.

Irvine Agreement Needed
When the situation was presented
to the board of supervisors Tues-
day, the consent of four members
of the board to the Craig agreement
was secured. At that time it was
stated that the lease could not be
given Craig by the county unless
James Irvine signs a document al-
lowing the term of lease to be fifty
years.

Wallace feels certain that Irvine
will give his consent to the terms
of lease. Craig's advent means so
much to the harbor that Wallace
feels that the terms should be met
without delay.

"The fact that Craig recognizes
Newport harbor is worth a great deal
to the harbor," said Wallace today.
"We will get from him \$50,000 to be
applied to dredging in the harbor at
a point removed from the frontage
that Craig wants to lease. This
money is to be spent in widening and
deepening the channel below Balboa
Island, and will be of general advan-
tage to the harbor."

"That Craig is investing \$50,000 in
the proposition is a fact that con-
vinces me that he will make use of
the property soon. When we re-
member that the people of Long
Beach paid Craig \$100,000 and gave
him six acres of land in order to
interest him in Long Beach harbor,
we feel that Orange county is to be
congratulated upon the agreement
that is being worked out."

Adds Confidence
The purchase of the tide island
between the sandspit and the chan-
nel where Craig is to have his lease,
by the Long Beach Consolidated Oil
company is another development of
recent date that has added confidence
in the future of the harbor.

The oil company paid a good price
to the Pacific Electric for this is-
land.

There seems to be no question at
Newport Beach that the oil company
will drill for oil on this flat. Whether
oil is the only object the Long Beach
(Continued on page ten)

Patrick Wool Products At Large Discounts

A WONDERFUL CHRISTMAS OFFER

Patrick-Duluth-Mankato-Duluth Makinaws, caps, leather coats
and auto robes are offered at next year prices. We have re-
ceived a guaranteed price for 1921 and are immediately plac-
ing this price in effect on our Patrick line.

DUXBAK OUTING CLOTHING FOR MEN

A shipment just received, priced right. NAP-A-TAN boots for
men and women.

HELP THE TIRED WORKER

A Request
in the Spirit
of Christmas

Christmas shopping has begun! In addition to many passengers, we must, until December 25th, carry many packages and bundles. Each day from 6 to 9 A. M. and from 4:30 to 6:30 P. M., every car this railway has (except those undergoing repairs) is in service moving the workers to and from their work, and at best some must stand for a part of their journey. During the Christmas period, will you not contribute to the comfort of many tired workers by planning your journey to and from the city between 9 A. M. and 4:30 P. M.?

Will you help us to serve best those who need service most?

Pacific Electric Railway

We have just received another shipment of those fine

Peninsular Gas Ranges

With high shelf and oven. Both in Right and Left Hand. Pyrex glass doors, white enamel drip pans and splashes. None better than the PENINSULAR.

HEWINS VISIONS S. A. AS MEGGA FOR TOURISTS

(Continued from page nine)

were satisfactory for several months' residence. Hence they moved to Long Beach or Pasadena to spend the winter. These visitors can now be accommodated here, and will be offered the last word in hotel conveniences.

Dining Room Feature.

Hewins stated that the dining room will be an especial feature of the hotel. He intends to offer the very best menus possible, and declared that according to his present arrangements there will not be a hotel in Los Angeles that can touch the dining room service of the new Santa Ana structure.

If he finds that the people of Santa Ana, and the visitors wish it, he will make a number of the dances and dinner dances a regular feature of the place. According to his present plans, the north side of the spacious dining room will be used for dining tables, and the south side, next to the windows facing the court, will be used as a dance floor.

Hewins is confident that the feature will prove very popular. "According to what I have been able to discover by investigation," he stated, "outside of one hall where dances are held once a week there are practically no opportunities for young folk, or old folk either, to dance in Santa Ana. When they want to dance most of them get up a little party and go to one of the beaches, usually Long Beach, where they either dance at one of the pavilions, or else take dinner and dance afterward at one of the hotels. There is no reason why that same opportunity should not be afforded here."

people have in view is not known here. It is known, however, that Long Beach people have had an example of harbor development and growth in values at their own door, and it is believed probable that the Long Beach Consolidated Oil company, composed mostly of Long Beach people, considers the island a fine investment aside from its oil possibilities.

THREE PERISH WHEN ROOMINGHOUSE BURNS

VANCOUVER, B. C., Dec. 9.—Three deaths and property damage estimated at \$75,000 resulted from a fire which broke out in the Imperial Vanish and Color company's store on Pender street, West, at 2 o'clock this morning.

The dead are Thomas Freeman, Jack Davey, and an unidentified man. All were loggers, occupying rooms in the Parks rooming house, which was located in the three floors above the paint store.

Bursting out in a great puff of flame, the fire made rapid headway and within a few moments had reached the apartments above the ground floor with heavy, oily smoke, which made the escape of the 72 occupants of the rooming house a matter of great difficulty.

The three deaths resulted from suffocation.

WOMAN TELLS ABOUT EDUCATING SPIDERS

WHEATON, Ill., Dec. 8.—Educating a spider is a task rarely undertaken. Mrs. Elizabeth Marriott Moffatt of Wheaton, one of the few students of spiders in the country, however, set herself to it and this is what she writes of her experience.

"By far the most common spider in this country is the one known as the 'black-and-brown speckled garden spider,' *Agelena naevia*," said Mrs. Moffatt. "The species, although called the garden spider, is often found in our houses, where it builds a flat sheet web in some corner, always having a funnel at the rear, into which the spider can escape when disturbed. The body is from one-half to three-quarters of an inch in length. At the back end of the spinnerets project, looking like little pointed tails."

"A fully grown specimen was captured and put into a wide mouthed half-ounce bottle. This was laid on its side on the library table. Every day she was given a small drop of water and one of several houseflies. The flies were fed to her by placing one in a bottle similar to that in which the spider was caged, placing a card over the mouth of the bottle than contained the fly, withdrawing the cork from the spider's bottle, placing the two bottles mouth to mouth, and then removing the card. "At once the spider would rush into the second bottle, seize the fly, and return with it to her own bottle. She soon learned to run to the mouth of her bottle whenever I approached her with water or a fly."

"After a few days the cork was taken out of her bottle so that she could come and go at will. She would wander about the table, crawling over and around books and papers, but always retreating to her bottle when frightened. She had built a small web in it, with a crude retreat in the farther end and had adopted it as her home."

"She learned so readily to come for food and water that I am led to wonder whether Fabre's contention that every act that a spider performs is 'impelled by an instinct that has come down to it through untold generations' is not subject to some modification."

\$80,000 IN PERMITS.

The building inspector of Fullerton reported to the Fullerton city council that 31 building permits were issued during November, totaling \$80,000. Twenty-one plumbing permits were given. The water receipts for the month were \$1573.10.

\$250,000 TO BE RECEIPTS FROM CHRISTMAS TOYS

were four to one in favor of the "Reds."

A big production of the game is planned by the California Crates company for next season. A number of the 100 made for the present season are on sale in local stores.

KIDDIES RESPOND TO 'HUMAN TOUCH'

(Continued from page nine)

I can't find it," he explained.

Teachers at Jefferson are convinced that departmental work is of real value in the development of the children in their charge, ranging from the kindergartners up to and including the fifth graders.

"It strikes an average for the child," said one of the teachers. "One teacher may not be able to quite understand him, and it is better that the child be with her for just one study rather than for all his studies."

One Boy Gives Reason
"One boy said he liked going from one teacher to another because when he got a teacher 'with a peeve on' he didn't have to be with her long. Occasionally, of course, a teacher must be a bit severe with a child, and a child who has had a bit of talking-to from one teacher is all the more likely to do the right thing with the next teacher he goes to that day."

The effort all through Jefferson is to have a pleasant, wholesome understanding with the children. If there is any one thing that is characteristic of Jefferson school it is that very thing. That understanding makes better students and it betters dispositions and enthusiasms.

Jefferson has an excellent record in patriotic achievements. It has a poster in a window showing it to be 100 per cent for the Junior Red Cross. The ideals and ideas of service are brought home to the minds of Jefferson's 140 children in every possible way at every opportunity. With the beginning of school in January a campaign for the purchase of thrift stamps is to be undertaken.

Gum Chewing Rampant
The buying of gum and candy has been running rampant among the children of Santa Ana schools for the past year. During the war children were taught to earn and save. Since then children while still earning seem to be slipping somewhat in their capacity to save. At least, teachers are finding an unwelcome trend toward recklessness in chewing gum and sweets. There is to be an effort to have children do less chewing and more saving.

Jefferson school has a motion picture machine. It was the gift of the school's parent-teacher association three years ago, and it has been an important factor in the teaching of geography and nature. Slides appropriate to the studies the children are taking are secured. While the use of the machine has been temporarily set aside by reason of the fact that the room fitted for the work is now being used for classwork, Miss Barclay says that it will be only a short time until this very useful bit of educational machinery is in use again.

Planning Entertainment
Opportunity for fathers, mothers and friends of Jefferson children to help one phase of the school's work is given on closing day this month, December 17. That afternoon an entertainment is to be given by the school. An admission fee is to be charged and the proceeds are to go to the library fund. Children of Jefferson school are great readers. They fairly "swamp" the library on Tuesdays and Fridays, the days books are distributed.

But one might visit for many hours at Jefferson school, and find out many things of interest concerning its affairs. Suffice it to say, as has been said in this article, Jefferson is a school that Santa Ana is proud to claim.

BIERCE VOLUMES NOW IN U. OF C. LIBRARY

BERKELEY, Dec. 9.—Book lovers who frequent the University of California Library at Berkeley will be overjoyed to hear that the most cherished of Ambrose Bierce's books, that eccentric genius who as yet is but little known to the general public, but who has been proclaimed by European critics worthy to rank with Poe, has been presented to the already nationally famous collection of the state university.

Among the volumes are the gifts of the first edition of authors who knew and loved this weird genius. The fly leaves bear the inscriptions from Jack London, George Sterling, Edwin Markham, Gertrude Atherton and other well known writers. Many rumors have been set to rest since the recent search by his close friends failed to locate any trace of him in Mexico, where it is believed he perished seeking some of the exotic material his books are full of.

TRAFFIC COP CONTROL MAY GO TO SHERIFF

SAN JOSE, Dec. 9.—Plans for changing control of the county squad of traffic officers are being discussed at the courthouse, the proposal being made that Sheriff Lyle take full charge of the men and their work. Until three months ago the officers reported to the District Attorney, but at that time he turned over control to the Board of Supervisors. It is said the scheme has not worked out properly, and the board members believe more would be accomplished by allowing Lyle to have charge.

KIWANIS CLUB ELECTS

SAN DIEGO, Dec. 9.—The election of the board of directors of the Kiwanis club to serve for the ensuing year was the principal feature of the club's weekly luncheon yesterday at the San Diego hotel. Those elected were Gilman Gist, Charles Richart, Harry Fraser, Claude Woolman, George Webb, George Luce, Lacey D. Jennings, Frederick Jones, Clarence English, John B. Osborn and H. L. Sullivan. The new board will meet next Tuesday to choose the club's next president, first and second vice presidents, secretary and treasurer.

UP-STATE NEWS

SACRAMENTO — Taxpayers of Sacramento County today appealed to the Board of Supervisors to call an election of Freeholders to draft a county charter. Indications were that the request would be granted.

OROVILLE—William Vorhees of Table Mountain received two telegrams within a half hour, both telling of the death of brother-in-laws, the first being Guy Scott of Washington, D. C., the second, Thomas Bishop, of San Francisco. Vorhees has left for Washington.

YUBA CITY (Sutter Co.)—A deed bearing a date in the year 1883, making it 37 years old, has been filed for record here by Christian Meier of Meridian, who all the time thought the instrument on record that properly conveyed in the deed formerly belonged to Meier's brother, William Meier. Through a visit to his attorney, Meier learned that the deed had never been recorded. He made a search at his home and found it among some old papers. Then he returned to Yuba City and recorded it.

PORTOLA (Plumas Co.) — The Walker Mining company in the past two months has laid off over 150 men or 60 per cent of its entire force. There are approximately 100 men at the mine now including the office staff and medical and culinary forces. The cause for the big reduction in the force is not announced.

—SISSON (Siskiyou Co.)—Rev. Nelson of the local Methodist Church has purchased a moving picture outfit and will use it to show educational films on his circuit which includes

Edgewood and Gazelle, where they have no picture shows.

MARYSVILLE (Yuba Co.) — In recognition of the manner in which Yuba and Sutter counties responded with recruits for the manning of the battleship California, both districts exceeding their quota, request will be made that one of the guns on the big boat be christened "Yuba," and another "Sutter."

WOODLAND (Yolo Co.) — Mrs. William Saunders, widow of the founder and former editor of the Woodland Democrat, died at her home in Oakland Saturday at the age of 90. Her husband passed away in 1908. The family left Woodland thirty-five years ago.

CHICO (Butte Co.) — This city needs a health ordinance to cover cases where horses and cows roam the residential districts. This is the statement of W. H. Marshall, City Health Officer, whose attention has been called to such conditions by residents of the Chapmans town district.

FRESNO — That he will decline the offer of an army chaplaincy offered him during the past week, was the announcement made by Rev. Hunter Smith at the morning service of the Normal Methodist church yesterday. Rev. Smith served as an army chaplain during the late war, and took up his present charge on the conclusion of peace.

FRESNO — Progress in the construction of the Memorial Baptist church is reported to be so far advanced that the basement of the new edifice will be used for worship by the congregation next Sunday.

—MODesto—A new battery of reports has been blown in by the Modesto Gas company, yielding a six-time increase in output, to meet the growth of the company's consumers

in the city. The 300,000 cubic feet capacity steel tank just completed is also in operation. The company has a daily gas-making capacity of nearly 50,000 cubic feet. The extensions and betterments have cost the company more than \$75,000 during the past year.

OAKDALE—The Oakdale-Pacific Pea Packing company will start this week putting in peas for the 1921 campaign. More than 1000 acres will be planted this winter—all at Empire, under contract with different farmers in that section. The company will not plant peas on its own or leased lands in the Oakdale district this year, but will set to wheat and later put in a crop of spinach for canning.

OAKLAND—All professional boxers appearing in Oakland would be required to furnish the city council and chief of police with certificates of good character under a resolution presented to the council today by F. P. Morse, commissioner of health and safety. An ordinance to this effect will be submitted to the council it was said. Recent attacks of games in San Francisco was declared responsible for the proposed measure. One of the demands will be that no fighters have criminal records.

STOCKTON—The cost of bread in Stockton is two cents lower than during recent months. The loaves that formerly sold for 12 and 17 cents are now selling at 10 cents and 15 cents. The 10 cent loaves weigh a pound and the 15 cent loaves weigh a pound and a half. Flour is now \$3.00 a barrel less than it sold at the peak of the war prices when the 12 cent and the 17 cent prices were put into effect.

Schools, Lodges and Societies—Mixed candies, candy canes and chocolates for Christmas — Special prices at The Dragon.

GERMANS COLONIZE PARTS OF MEXICO

MONTEREY, Mex., Dec. 9.—Plans are on foot for the colonization of thousands of German families in Mexico, according to authoritative advice received here from the City of Mexico, where the promoters of the big immigration movement have been for some time arranging details. It is stated that the land upon which these colonists are to be located has been purchased, and that the first lot of fifty families for one of the colonies in the State of Chiapas recently arrived there direct from Germany.

The immigrants reach Mexico via the line of steamships that ply between ports of Spain and Vera Cruz. In the State of Coahuila, about one hundred miles south of the Rio Grande, a large German colony has been established in the past year. These colonists, however, all came from Texas. The reason for their immigration was the enactment of prohibition in the United States. Most of the new German colonists are to be located in the tropical parts of Mexico, it is stated.

JAP PREMIER HOPES FOR PEACE WITH U. S.

TOKIO, Dec. 9 — Takashi Aha, Premier, in an address at Nagoya, expressed the hope that the present negotiations between Japan and the United States would result favorably. He reiterated that Japan's policy continued toward peaceful expansion. Viscount Kato, in a speech to members of the opposition party, declared that the results of the two years of control by the Hara government had been the withdrawal of the Japanese from Siberia with Japan's aims not attained, the anti-Japanese laws in California, and anti-Japanese sentiment in China.

HERE'S TALE OF THREE OLD MEN SANS HOMES

Three old men, homeless, too old for active work, but still able to work just enough to enable them to eat, were "visitors" of Justice John B. Cox the other day.

They had been brought into Santa Ana by Sheriff C. E. Jackson. They were not under arrest. They had been living in small neat shacks which they had erected between the cement partitions under the Chapman street bridge on the state highway.

Their presence had been reported to Sheriff Jackson by neighbors who feared that the shack structures might, in case of a heavy rain, cause the water to back up in the river bed and damage the bridge.

The men were Alex Brown, 70, a gardener, Robert Johnson, 70, and Ned Tracy, 80, citrus workers.

The three old men waited in the furnace room of the courthouse during the noon hour. When Justice Cox returned at 1 o'clock they filed into the courtroom and took seats. Justice Cox, moved by the sight of them, opened court by reciting a poem by Oliver Wendell Holmes, "On Meeting My Class—Twenty Years After."

"Have any old chaps got mixed with the boys? If there have, take them out without making a noise. Hang the calendar's cheat, and the calendar's spite! Old time is a liar, we are twenty tonight; Yes, we are twenty. Who says we are more! He's tipsy, young jackknives—just show him the door!"

The three old men smiled reminiscently, and one of them, Alex Brown, the youngest and most active of the trio, said:

"Judge, you're trying to take Shakespeare's job away from him." The judge then questioned them as to their business, and as to whether they had homes. All of them stated that they did not.

"I'm getting pretty old, Judge, and most of my old friends have died or are scattered—I don't know where," stated Johnson. "I have a grandson, who was in the army during the war. He's somewhere in the East now, and I have lost track of him and can't find him, and I guess he lost track of me."

"I call San Diego my home. I've been up near San Bernardino working in the orange groves, but that work is over now. I came down here to find work, but didn't succeed in getting much. I've got a little money left, and was just going on

down to San Diego when the sheriff came out to talk to me."

"I'm eighty-two years old, Judge," said Ned Tracy, "and I left Ireland seventy-two years ago to come to this country. When an old man's arrivin' at eighty-two, most of his friends have died, and he's pretty lonely. I can still work, and I've been a workin' until lately up in the northern end of Orange county, which is green enough for any Irishman, for all that it's Orange. I've picked up a little money here. I've got a friend or two up in Los Angeles, and I'm thinkin' I'd better go back up there, as I can get work there."

Alex Brown undoubtedly proved the most interesting of the trio. For all of his 69 years he is active and alert. He is a gardener by profession and is a well educated man and an interesting talker. He had a very neat, comfortable, and clean little shack rigged up under the bridge. He has been doing gardening jobs for people in the neighborhood. He stated that he was a "lover of the great outdoors."

He said he had built his shack because he found second rate rooming houses, the only ones in which he had money enough to live, unclean and dirty, and that he couldn't sleep in them, and was restless and fagged out. He stated that he had been living outdoors for ten years, and wanted to continue it, and that if there were objections to his having his shack under the bridge, he would move it elsewhere.

"I have no home, and no relatives. I have never had a home. I used to be a clerk when I was younger, but I'm too old to stand the strain of that now. I have been working here at gardening, and have money in my pocket. I have several jobs in sight for the latter part of this week. I have been making my purchases here in Santa Ana. If I have disobeyed the law I am willing to be punished, but I want to stay here in Orange county because I like it. It's the best place I've ever been in. I can get work here, and people are glad to have me work for them because I am a good gardener."

Brown said his bed beneath the bridge was much cleaner and more comfortable than a rooming house bed. He said he made it with new straw, on which he placed an oilcloth, and then spread newspapers over it before putting down his blankets. Newspapers, he said, were the best protection against air that one could get.

When asked what newspapers he found the best for the process, he said he preferred the Fresno Republican, "because one is assured of sleeping honestly." He said he did not like the Los Angeles Times or Examiner because "one is sure to rest uneasily when depending upon them." He said that now, since the Fresno Republican has changed hands, he prefers the Santa Ana Register.

Sheriff Jackson and Justice Cox assured Brown that as an American citizen and an honest workman he could stay and would be welcome in Orange county as long as he wished to stay. They advised him, however, to get some place for his shack

POWER IS BACK OF CALIFORNIA DEVELOPMENT

Only the most vigorous development of the hydro electric resources of California make it possible for the population to continue its present increase in growth, which according to a statement received by District Manager W. L. Deimling of Santa Ana has grown 44.1 per cent since the census of 1910, while the power consumption of the state has increased 300 per cent in the same period.

For the past four months Vice-President W. W. Woods of the First National Bank of Los Angeles, has been making a series of very careful studies of the power, oil and gasoline situation on the Pacific coast, and the salient features of these have been sent to Manager Deimling by the general office for the information of light and power consumers in this vicinity who are interested in diverting another power shortage.

Woods says in part:

"The final census statistics for 1920 give California a numerical increase in population over 1910 of 1,045,987. At the same time the power consumed in California has jumped from 1,250,000,000 K.W.H. in 1910 to 3,750,000,000 K.W.H. in 1920.

"This means that the demand for power has increased not alone at the same rate of population increase, but to a much greater extent, and there is not a man or woman in California today who does not know of the power shortage which California has faced during the last two years, or who has forgotten the oil and gasoline shortage of three months ago, and this year 50 per cent more wells were required to produce practically the same amount of oil as that produced five years ago.

"California's oil consumption is outrunning her production at the rate of more than 10,000,000 barrels a year. This can only mean that as the population increases and as demands for fuel also increase, the price of fuel oil and gasoline will mount so rapidly that this state must inevitably turn largely to some other fuel for its power. No influence on earth save rationing the supply, can keep the present prices stationary.

"During the past ten years, a major portion of which was given over to a much greater extent, and there than under a public bridge. He stated that he would move at once. Tracy decided to go on to his friends in Los Angeles, and Johnson said that he would go on to San Diego as he had planned.

"Goodbye, boys," said Justice Cox as they left, "and don't forget it—'Old Time is a liar, we are twenty tonight.'"

over to world war, the rate of increase in population on the Pacific Coast was retarded because of war and the necessity for people to turn their attention to war production in the east and to the sending of men overseas. It is therefore, to be expected that the increase in population from 1920 to 1930 will be at a much more rapid rate—if so be that there is developed within this state the power which will pump the necessary water for irrigation and turn the wheels of the factories.

"The whole country knows that we on the Pacific Coast are offered a new industrial position in the world, for in the lands bordering the Pacific lie two-thirds of the world's population, and given proper opportunity, the new Merchant Marine will develop for us markets of which we have never dreamed; but if we expect to build up this world trade and so increase our own industrial production, we must have products to sell.

"During the war the Council of National Defense made a series of studies of the economic conditions in the various cities in which it was desired to place war contracts—contracts which would bring largely increased population and develop huge factories. When the field engineers of the Council went to a city they investigated the water situation, and above all else, the proportion of fuel, whether that fuel be coal, oil or water power.

"When the point was reached in any city where it would be difficult to obtain the necessary driving force for factory wheels, the contracts were placed elsewhere, and what was true for war, by order, must, by force of economic conditions, become the basic industrial law in California within the next ten years.

"It is for this reason that those who have the interest of this state at heart are particularly anxious that the hydro-electric programs of the various power companies may not be held up and also that such organizations as the Union Oil Company of California, which has announced a program of ship construction to bring into California from Mexico the necessary fuel oil to make up at least a part of our own shortage, may have the full support not only of the business interests, but the whole people of the state."

NEVADA SOLON PLANS ANTI-JAPANESE LAW

RENO, Nev., Dec. 9.—Preliminary steps have been taken by Reno members of the new Legislature to secure the passage of anti-Japanese legislation at the coming session. One assemblyman has secured a copy of the California anti-Japanese law and will press its adoption by the Nevada lawmakers.

Sentiment against permitting Japanese to acquire land or engage in business in this state is strong in all sections, and it is certain the Reno delegation will be strongly supported. Labor is also opposed to any increase of the Japanese population in this state.

SAN DIEGO NORMAL TROUBLES STATED

SAN DIEGO, Dec. 9.—According to Edward L. Hardy, president of the San Diego state normal school, that institution is not able, in its present condition, to meet the demands that are made on it. It is running with a depleted and underpaid faculty and the student body is but little more than half as large as it was before the war.

This latter condition soon may be partially remedied, it is said, by financial support of the public schools, but it will not be satisfactorily met until the training offered is recognized as being on a par with other collegiate work, and the indications are that it will not be fully met until the teacher-training institutions extend their work to cover a four-year period at the end of which an appropriate degree may be conferred.

Outstanding problems which the normal school faced at the beginning of this reconstruction period were a depleted student body, an overcrowded curriculum, poor integration of high school and normal school work, unsatisfactory credit relations with colleges and universities, discrimination against the institution by high school principals because of poor salaries of teachers, need of financial support to build up the faculty and lack of housing facilities for students.

The normal school authorities have been active in solving these problems, some of which already have yielded to their efforts. The curriculum has been scientifically revised and the problem of high school and normal school integration has been solved. Credit relations with colleges and universities are gradually being adjusted and discrimination of high school principals against the normal school is disappearing.

A most important problem, yet unsolved, is said to be that of financial support. Voters at the polls have given relief to the teachers in the field and have assured a more adequate support for the elementary and high schools, but the normal school, as yet, has had no relief, Mr. Hardy says.

Dormitories, it is reported, are now an absolute necessity, as a result of the acute shortage of housing problem. A problem has been made to subsidize students who take the normal school course, but it is declared to be far more reasonable to provide living conditions on a cost basis, thus saving for the individual student a sum equivalent to a considerable subsidy. But no matter how the situation is looked upon, normal school authorities feel it has become necessary for the state to enter the housing business if any increase in enrollment is to be registered.

Legislation needed to place California safe in educational affairs may be reduced to three simple actions, according to Mr. Hardy: The

REDLANDS PRIEST GETS HIGH OFFICE

REDLANDS, Dec. 9.—Monsignor Thomas Fitzgerald, priest of the Church of the Sacred Heart in this city, has been appointed by the Pope to the office of apostolic prothonotary. This office of the Catholic church ranks next to that of bishop, and Monsignor Fitzgerald is the second priest west of the Rockies to be thus honored.

In an elaborate church ceremony in Redlands on November 7, the title of Monsignor was conferred upon Father Fitzgerald by Bishop Cantwell, the latter having been delegated to perform this ceremony when he had audience with the Pope some months earlier.

This further honor has come to Monsignor Fitzgerald because of his record as a priest and because of his extraordinary talent. He is thus accorded certain privileges at Rome, which are not accorded to the regular members of the priesthood.

approval of budgets as presented by the budget board, the opening of the road to collegiate status upon compliance with such rules and regulations as the state board of education may prescribe, and the solving of the housing and living situation by providing funds for the building of dormitories where needed.

HOLD EBELL CLUB BAZAAR SATURDAY

FULLERTON, Dec. 9.—Saturday, December 11, the Ebell club will hold a Christmas bazaar and gift shop at the Adams garage on N. Spadra.
This event is expected to be the greatest boost to the Ebell building fund of all efforts now being put forth by the various sections contributing to that purpose. Those having the matter in charge report that contributions coming in from members of the club and business firms comprise a display of gifts of the widest choice and of a variety that will meet the demands of all Christmas shoppers both from desirability of purchases and conservativeness of price. Dainty fancy work, practical gifts and cooked food will be on sale all day Saturday. Every member of the club has been asked to contribute something to this sale, and from the early survey of those in charge, it is shown that the members are responding liberally and generously as well as the business men of the city who have given most liberally of their wares for this sale.
In order to facilitate the canvass of the members of the club, chairmen of the districts have been appointed to select within a given territory, and the following ladies will be responsible for all contributions from the territory to which they have been assigned:
Mrs. O. M. Thompson will solicit all members on North Spadra, Malvern, Brookdale and Union avenues. Mrs. R. S. Gregory will solicit all members living on Hillcrest and north Harvard. Mrs. H. W. Shepherd, east Commonwealth, east Amerige and east Wilshire. Mrs. Green and Mrs. Gurman Hoppe, west Commonwealth, west Amerige and west Wilshire. Mrs. Dreyer, east Whiting, east Chapman and Ellis Place. Mrs. Courtney, west Whiting and west Chapman. Mrs. McGill, Buena Park and La Mirada. Mrs. Thomas, Picentia, and Mrs. Schweitzer will solicit all members in Brea.
Any further information may be obtained by calling 254.
Those contributing cooked food will send same to the sale place Saturday morning. All articles will be most reasonably priced and the club members earnestly solicit the patronage of the public in their efforts to make this event a financial success.

ORANGE HIGH OPENS BASKETBALL SEASON
ORANGE, Dec. 9.—The high school basketball season was to be inaugurated this afternoon when the local basketballers were scheduled to meet with Corona on the home court. The Orange and White squad have been hard at work for over a week and last night the first team picked up 63 points to the Scrubs 4 which looks though the team was getting into shape. Corona is an unknown quantity but they have been playing basketball during the football season and should be in top form.
The coach has also practically closed arrangements with Riverside to play here a week from Tuesday and with Fullerton Junior College to play here next Tuesday a week from today. Santa Ana Junior College have also asked for a date before Christmas and will be substituted for Riverside in case the northerners cannot play next week.

COMPLETE CHRISTMAS PACKING OF NAVELS
FULLERTON, Dec. 9.—The Christmas navel shipments by the Plantencia Orange Growers association will be completed today and the packing house temporarily closed, probably until after the holidays. A. Prichard, manager, stated this morning. He added that the shipments made for the Christmas trade totaled 20 cars besides local sales at the packing house.
The directors of the association met yesterday to formulate plans for the business next year.
"Diurnal" will be presented by the faculty of the Fullerton high school a week from Friday night, L. E. Plummer, principal stated this morning.
Fullerton will debate Anaheim at Fullerton next Friday evening.
"Resolved, the U. S. should enter the League of Nations without reservations." Fullerton has the affirmative.

ANAHEIM IS SEEKING COUNTY INDOOR TITLE
ANAHEIM, Dec. 9.—The indoor baseball championship of the grammar schools of Orange county is to be settled Friday afternoon by a game between Anaheim and Tustin. This decision was reached at a meeting of representatives of each school. It was also decided at the meeting that a basketball schedule, similar to the indoor schedule, be drawn up the games to start after the holidays. The objection that some of the schools had much heavier playing than others was brought up, but the fact that the purpose of the league is to promote clean sports rather than to enter with the exclusive idea of winning was considered adequate answer and the objection was withdrawn.

ORANGE NINE TO PLAY OXNARD NEXT SUNDAY
ORANGE, Dec. 9.—No game on the home lot Sunday is the announcement made by Manager Cris Sorensen. Sorensen will take his baseball club, coaches, trainers and scorekeepers to Oxnard Sunday where his club is expected to sink its teeth into the Oxnard nine.
The truth about the non-appearance last Sunday of the Los Angeles Police nine was divulged when it became known that the "cops" suffered from flivver indigestion enroute. The wheezing "fliv" is said to have costered the police athletes all over the road between here and L. A. Some of the policemen are suffering from slight bruises.

FAST TRAIN MAY STOP AT ANAHEIM EACH DAY

ANAHEIM, Dec. 9.—Santa Fe fast train No. 75, which has been going through Anaheim in the evenings without stopping since Nov. 14, has been stopping on signal for the last week for the mail which has been too heavy to permit of handling by means of a catch pouch and for the last two evenings has been letting passengers off and on, J. F. Ahlborn, local postmaster, stated today.
Mr. Ahlborn stated that every effort will be made to have the train stop here regularly each evening without signals, though no orders have yet come forth from the railroad officials so far as Mr. Ahlborn or N. J. Kuhlman, Santa Fe agent, are aware. It is absolutely impossible to handle all the mail on the present catch pouch system, Mr. Ahlborn added.

POLICE VIGILANT, HOBOES SHUN CITY

FULLERTON, Dec. 9.—That Fullerton is being shunned by all "hoboes" is the statement made by Ed Thwing, city marshal, who stated that the rigorous prosecution carried on by the police department in combing the night trains and the stiff sentences given the offenders by William French is having its effect and "brakies" now report to the officers that "bums" leap off several miles out of town on each side rather than take a chance of escaping the vigilance of the police. This has much to do towards keeping down night robberies in Fullerton so while burglaries have been committed right along in other near-by towns Fullerton has been practically exempt. No unknown person is permitted to linger about the streets at night without explaining themselves and officers comb the washes and railroad bridges to make sure that no "weary willie" camps can be established. But despite this vigilance something is bound to happen, the marshal admitted. California is the mecca for too many unscrupulous persons during the winter months for Fullerton to escape. While many of the best people of the state contribute to California, for the winter the scum of the earth is also drifting in, making it necessary for the officers to exercise more vigilance during the winter than during the summer.

SURGEONS OF RUSSIA USE NEW ANESTHETIC

PARIS, Dec. 9.—An anesthetic with relatively no danger and "pleasant to take" is said to have been produced by the surgeons of the hospitals of Soviet Russia. Dr. Marcou, once an interne of the Paris hospitals, describes the process in an article written for L'Information. He asserts that he watched the new method used in Professor Kravoff's use on animals to Professor Kravoff and his application to operations on persons to Professor Fedovoff, formerly surgeon to the Emperor.
Dr. Marcou says the patient awakes from sleep produced by it a little heavier in the head, but without nausea or ill effects.
It is methypropylchloral in the proportion of one to 100 parts of warm, salty water that does the business, he says. This is injected directly into a large vein in the arm and the bolt tube is left in the vein so more may be pumped in as needed.
"Hundreds of operations," says Dr. Marcou, "were performed in Russia during my stay. I watched some of them. Not one case of death has yet been reported."
The anesthetic is said to be particularly valuable for head and neck operations, where the use of the ether or chloroform mask interferes with the surgeon's work. In such diseases as make the introduction of salty solutions into the blood stream or dangerous, says Dr. Marcou, salt may be replaced by glucose or bicarbonate or soda.

STATE PROMISES TO IMPROVE HIGHWAYS

STOCKTON, Dec. 9.—The State Highway commission has given its promise to reconstruct several important roads in this county at the very earliest possible time. This is the assurance given by the commission to Senator Frank S. Bodds and who in turn related the good news at the monthly meeting of the county farm bureau directors.
The roads which are to be improved are the highways from French Camp running south to the Stanislaus county line and from the same point running west to the Alameda county line. The other road to be reconstructed is the highway from Lodi running east to the Calaveras county line. Besides the reconstruction of these roads it was further agreed to place railings on each side of the Toll Road between Stockton and French Camp at points where needed.
At 7 1/2 cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added conveniences and comfort in going and coming when and where others don't go. When taking your next day's outing, remember Copson rents cars without drivers.

BUENA PARK P. T. A. TO MEET NEXT TUESDAY

BUENA PARK, Dec. 9.—The regular monthly meeting of the Parent Teacher Association will be held next Tuesday evening. The subject of "The Social Side of a Child's Life" will be discussed. In beginning Miss Crandall will take the question from the teacher's viewpoint, while Mrs. J. Robertson will speak on the parents' views of the subject. Mrs. L. J. Robeson and Mrs. Edward Mann will then lead in a general discussion of the question.
It is the wish of those in charge of the meeting that everyone try to be present at seven-thirty. While some have tried to observe this regulation it is discouraging to sit and wait for the crowd to arrive, and many have been late in arriving. Everyone is urged to be prompt.
It is reported that Mrs. J. W. Wilson, who is in the Fullerton hospital recovering from a serious operation, is resting nicely and much hope is felt for her recovery.
Much enthusiasm has been shown in selling the Red Cross stamps by the children of the grammar school. A very short time was necessary for all the stamps to be sold out. Much interest was evidenced in the army balloon which jared over Buena Park on Wednesday. The balloon came to earth a short distance northwest of town, but before a large crowd had arrived it had ascended and resumed its way.

Mrs. Gerald McCumber with her two children, Geraldine and Charles Garner McCumber are visiting in Artesia with Mrs. McCumber's parents, Mr. and Mrs. Garner.
Many of the Buena Park Masons expect to attend the dedication ceremony of the new Masonic temple at Fullerton, Wednesday evening.
An interesting change in the day's routine occurred Monday when Tom Mix and his moving picture company stopped for over an hour in town. Three truck loads of scenery were part of the equipment of the company.
Sunday, Dec. 12, has been set aside as "Go To Church Sunday" for Buena Park. At ten o'clock the Sunday school will offer an hour of inspiration and instruction and 100 are wanted to be present.
The morning service will begin at 11 o'clock with Rev. C. L. Knight preaching on the subject, "Give An Account of Thy Stewardship." Mrs. John Robertson will sing.
The Intermediate Endeavor will meet at 6 p. m.
Evening services begin at 7:30 p. m. Mrs. C. L. McCumber will sing a solo and the male quartette will also give a selection. The questions handed in by the congregation will be answered and an opportunity for open discussion will be given. Questions such as Sunday labor, translation of Elijah, the soul and the book of Jonah will be discussed. Everyone is invited to be present.
Mrs. Alice Robertson entertained at her home with a dinner for the grammar school teachers and Miss Margaret Martin, Wednesday evening. All present report a very delicious dinner and a pleasant evening.

BIG OIL COMPANIES IN WILDCAT TESTS

BAKERSFIELD, Dec. 9.—Thousands of acres in the Buttonwillow county have been leased for oil. Among the lessees are the Dutch Shell and the Doheny interests. Doheny has \$8,000,000 and through a man named Keck, it is said, a test well is to be put down near the Tracy ranch.
This wildcat proposition will be about three miles north of the McKittrick highway, near the road that leads northward from the Tracy ranch to the William Tracy ranch. Several hundred acres of the Tracy ranch have been leased for oil.
The Dutch Shell interests are drilling for oil west of Wasco and in the vicinity of the Goose Lake district where a chain of wells to test the territory will be put down.
A test well is to be drilled on the flat between Buttonwillow and the Elk Hills.

CITY SUES LAWYERS TO COLLECT LICENSE

MADERA, Dec. 9.—The Madera bar association is at issue with the city trustees over a city ordinance requiring attorneys to pay license fees for the privilege of doing business in the city.
Some months ago such an ordinance was passed by the trustees but the attorneys declined to comply with it. The city then started a friendly suit against a member of the bar association to enforce the collection of the license fee. The suit has not yet been concluded but the city has been attempting to compromise with the attorneys.
In spite of the fact that the supreme court has upheld a similar ordinance in Mayville the bar association here has rejected the overtures of the city authorities and will fight the case to a finish.
Jos. Barcroft has been elected president of the bar association; J. Coghlan, vice president, and Stanley Murray, secretary-treasurer.

STRANGER SEEKS TO SEE FORMER KAISER

DOORN, Holland, Dec. 9.—A stranger, armed with a card describing himself as one of the plumbers who were doing some work at the home of former Emperor William of Germany, was arrested a few days ago for entering the House of Doorn, William's residence. The motive that prompted him to seek access to the former emperor has not yet been revealed by the Dutch authorities who placed the man in jail.

LOS ANGELES, Dec. 9.—A chase of three blocks in which many shots were fired led to the capture early today of Jose Garcia, 23, suspected of the theft of a gold necklace from Miss Dorothy Gonzales.
Garcia was caught by Police Sergeant William White, who said he saw Garcia and an accomplice rob Miss Gonzales. Garcia's companion escaped.

AWAIT SPECIAL CABLE TO COMPLETE SYSTEM

ORANGE, Dec. 9.—Completion of the city's ornamental street lighting system awaits only the arrival of a section of special cable to be used in the plaza section of the system. That cable has been ordered by express from the east. After its arrival installation will require only a few days and the system will then be ready for illumination, according to Street Superintendent Buchanan.
Prompt and creditable cooperation with the city by the Pacific Telephone & Telegraph company in clearing the streets of telephone poles, laying of underground conduit, and repairing of paving cut for underground work was complimented by Mr. Buchanan in discussing the street lighting.

VALENCIAS COLOR EARLY THIS YEAR

ANAHEIM, Dec. 9.—Manager W. H. Schureman, of the Anaheim Citrus Fruit Assn., isn't worrying about the fact that oranges are coloring earlier than ever before and that they are small in size.
Asked if he had any reason for reducing his estimate of an output of 3000 cars by Anaheim district this coming season, he shook his head and said:
"I have seen 21 orange seasons and no two of them have been alike. This year the fruit is coloring earlier than ever before. The fruit is small. It will run from medium to small, instead of from medium to large as the last season. We must become reconciled to the idea of small fruit this year and take comfort in the fact that it is small everywhere, including Florida. Last season we had too much big fruit, we thought, and we had to educate the trade to buy it by sizes. This year we will have to educate it to buy small fruit."
"However, it is going to grow a lot yet. Let us have some good rains and get that old tap root soaked and you'll see the fruit swell out."
"I have never before shipped nicer colored navel at this part of the year from this part of the country," declares Schureman, in commenting on the fact that he hoped to wind up his pre-Christmas packing today. He has shipped seven cars and expects to wind up the holiday business with two or three more. Pick-up, of course, was stopped this morning by the rains. Whether it will be necessary to pick any more before Christmas will depend on whether the fruit drops badly.
"We didn't ship any navel last year until January. Valencia's are as highly colored now as in February, last year. There is a chance of a freeze or drop badly, or not size up, but I don't think the grower needs to worry over the prospects of heavy yield."

MILLIONAIRE WIFE OF REALTOR ASKS DIVORCE

LOS ANGELES, Dec. 9.—Mrs. Winifred A. Sargent, multi-millionaire wife of Fred P. Sargent, Venice real estate man, and former widow of the late E. R. "Bob" Montgomery, owner of the famous Shoshone gold mine in Nevada, has brought suit, in San Francisco, for divorce, charging desertion.
Filed in the Superior Court by Attorney Gavin McNab, the complaint recites that the Sargents were married in Los Angeles on July 14, 1913, and alleges that the realty dealer deserted his wealthy wife July 24, 1919.
Mrs. Sargent requests that the name of Winifred A. Montgomery be restored to her. Neither Mrs. Sargent nor Attorney McNab would comment on the suit and Sargent, who is living here, was equally reticent.

LAUNCH PLANS FOR ANNUAL ORANGE SHOW

SAN BERNARDINO, Dec. 9.—"Here's where we really launch the work of making the 1921 National Orange show," observed President J. E. Rich at the Chamber of Commerce as the members of the executive committee met in formal session to begin consideration of details. About two and one-half months before the opening of the show, the state before the lights will be turned on and the public admitted for the first time to see the beauties of the exposition, which is to again occupy the grounds at Uplift.
For the poster committee, Chairman Edward Wall submitted a particularly striking and attractive design, which has the additional merit of being characteristic, for many feature exhibits are sketched as a charming Miss holds up the edge of the tent, giving the effect of view across the interior of the "big top." The sketch was approved and, on the recommendation of Mr. Wall, 2,500 will be ordered. The poster is largely hand work, mounted on very heavy board, and it will be sought as a feature for store and shop window displays all over California. The posters will be out early in January.

As to Admissions

All questions with reference to admission, prices and character of tickets was referred to a special committee.

TAKES BOLD BANDIT AFTER LONG CHASE

LOS ANGELES, Dec. 9.—A chase of three blocks in which many shots were fired led to the capture early today of Jose Garcia, 23, suspected of the theft of a gold necklace from Miss Dorothy Gonzales.
Garcia was caught by Police Sergeant William White, who said he saw Garcia and an accomplice rob Miss Gonzales. Garcia's companion escaped.

OFFICERS ELECTED BY FULLERTON POST

FULLERTON, Dec. 9.—Fullerton Post 142 of the American Legion met in the new club rooms over the Standard bank. New officers were elected and an extensive membership and financial campaign was started, which when completed, is expected to put the local post among the strongest in this section.
Carl H. Brueckner, who is the newly elected post commander, stated that the post having passed its preliminary organization now plans to expand until it includes every ex-service man in Fullerton and vicinity. Delegations from La Habra, Yorba Linda and Buena Park were present at last night's meeting.
The post recently moved into its new club rooms and in doing so incurred a great expense and now finds it necessary to conduct a campaign in order to furnish the rooms as the members desire. The financial campaign will be in the manner of a popular subscription and the post officers request the undivided support of the community.
A meeting will be held next Monday night to outline plans for the coming year and to select teams and appoint captains for the membership drive. At this meeting the post will determine the nature of its holiday work and will appoint a committee to take charge. Following are the new officers:
Carl H. Brueckner, post commander; W. L. Benchley, first vice commander; J. E. Seale, second vice commander; Frank Ruble, secretary; John H. Habb, Jr., treasurer; E. J. Marsh, sergeant at arms. The executive committee is Carl H. Brueckner, Frank Ruble, Fullerton; Edwin W. Kimbrough, Yorba Linda; Ross N. Hodson, La Habra; I. D. Jaynes, Buena Park.

FIRST TRIP AT SEA FATAL FOR ANGELENO

LOS ANGELES, Dec. 9.—Heavy seas, encountered while crossing the channel five miles off Gray's Harbor, Aberdeen, Wash., resulted in the death of Emil Stolzerman, 31, of Los Angeles, who was washed overboard from the motor steamer Lassen on his first trip at sea. He was second mate. Word of the accident was received here late last night.
Stolzerman lived here and received his navigation papers November 29 at San Pedro from the school of navigation conducted by Capt. Hugo Frerichs. He was born in Riga, Russia. He attended Los Angeles high school before taking up navigation.
The Secretary's main speech, written to commend the solidarity of South America for the League, was scheduled for delivery at Buenos Aires immediately after the arrival of the American diplomat in Argentina from Rio Janeiro. This effort, it was stated, was entirely wasted.

ARGENTINA'S ACTION DISPLEASES WILSON

WASHINGTON, Dec. 9.—The administration is greatly offended by the action of the Argentine Republic in leaving the League of Nations and it is altogether probable that Secretary Coby will revise his plans and not visit that country at all, it was learned here. Furthermore, the American Secretary of State will be compelled to revise all his speeches composed in advance of his tour of South America.
The Secretary's main speech, written to commend the solidarity of South America for the League, was scheduled for delivery at Buenos Aires immediately after the arrival of the American diplomat in Argentina from Rio Janeiro. This effort, it was stated, was entirely wasted.

YOLO BOARD PLANNING MORE HIGHWAY WORK

WOODLAND, Dec. 9.—Yolo county supervisors are laying plans to construct about fifty miles more of improved highway just as soon as they have spent \$10,000,000 raised by bond issue, and which has constructed approximately seventy-five miles of permanent roadway. It is the purpose to construct the additional system so that it will tap the Yolo-Lake highway, provided for in the state bond issue, allowing \$250,000 for the construction of thirty-five miles of road between Rumsey, this county, and Lakeport, in Lake county. The road will run through the Capay valley, Yolo county. Yolo's additional roads will be constructed by direct tax issue.

More than just good to eat—
DEL MONTE Beans with Tomato Sauce are an appetizing, wholesome, ready to serve food containing more nutriment than steak or eggs—and they cost much less.

THE GREATEST TIRE IN THE WORLD

THE DAYTON AIRLESS TIRE
No Punctures—No Blow-outs—As Easy Riding as Pneumatics
Not a Solid Tire or a Tire Filler.
Numerous reports from users during the past nine years show that "DAYTON AIRLESS TIRES" give from 20,000 to 50,000 miles per set—every mile without tire trouble of any kind. Can you say as much for pneumatic tires? Can you afford not to look into the merits of DAYTON AIRLESS TIRES and their TROUBLE-FREE and ECONOMICAL MILEAGE?
For Fords, Maxwells, Chevrolets, Dorts, Light Overlands and any light car not using larger than 31x4 tires. As an introductory offer we will accept this ad as a ten percent discount on first orders.

EDUCATORS' STATEMENT AS TO EVOLUTION CAUSES PASTOR TO LOOSE SEVERAL RED-HOT SHOTS

Probably no communication in the Register in months has aroused as much interest and discussion as has the communication printed last Friday dealing with the doctrine of evolution.

That communication was signed by four of Santa Ana's foremost educators. Today, as a part of this article, the Register prints a red-hot reply by the Rev. F. T. Porter, pastor of the First Christian church.

Recently the Rev. Porter preached a sermon dealing with evolution. The educators took issue with the Rev. Porter, and in their communication declared that he was mistaken in his declarations to the effect that evolution as a theory is no longer accepted by scientists. The second point around which the educators' communication centered was their declaration that there is nothing incompatible in the theory of evolution and Christianity.

The position taken by the educators—D. K. Hammond, principal of Santa Ana high school, E. M. Nealey, dean of Junior college, P. M. Magnusson, head of the history department of the Santa Ana high school and J. Russell Bruff, head of the science department of the Santa Ana high school—was upheld in remarks delivered Sunday from his pulpit by Rev. Walter, pastor of the South Methodist church.

Rev. Porter's Statement

The reply made by Rev. F. T. Porter follows:

"Editor Register—I have read with great profit and saving of time the reviews presented by some of the best books as they came upon the market, thereby gaining a good understanding of the main points each author has presented, his style of speech and manner of arriving at conclusions.

"At the end of the reading I have in mind a fairly complete outline of the entire volumes.

"The review is certainly a splendid means by which the busy man and woman may keep abreast of the thinking of his time.

"The review presupposes an intimate acquaintance with the entire book. It would be as impossible to review an unread book as to form blood and bone out of the food some other person has eaten.

"Perhaps the readers of the Register are psychic enough to get the argument and main conclusions out of my sermon on November 28 from the 'review' published in the Forum of the Register of December 3. I confess I searched in vain for signs of the arguments or conclusions and I am also at a loss to understand how two gentlemen, not present, having neither heard nor read the sermon, could sign their names to the 'review'.

"This is not to be in any sense a review of the 'review' but an acceptance of the challenge which flaunts in our face.

"We are not caring at all what statements were made by scientific men upon the various occasions of celebrating the life or work of Mr. Darwin, so long as no proofs were

nor have been presented of their correctness, but we do wonder why these same celebrations are held if his theories and conclusions are so far out of date that a man referring to them should be held up to ridicule.

"Would it be possible that the conclusions of today will in ten or fifteen years be in as bad repute? I wonder how the men proposing today's theories and teaching today's conclusions measure up with Darwin intellectually.

Concerning Theories

"Some way or other this so-called realm of science seems as shiftless as the clouds in a summer sky. Though new theories continually arise, just so continually do they all disappear and leave God's handiwork in a cloudless blue. It would be idle to speculate as to the number and matter of such theories that through the ages have gone to the trash heap.

"The 'review' referred to says: 'We deeply deplore the fact that contradictory and irreconcilable statements should come from teacher and preacher, for such a situation can only lead to the result of confusing the adolescent mind.'

"We certainly agree in this in its entirety. By their fruits ye shall know them, and the fruits of a well established belief in the evolutionary theories that require such voluminous explanations to bring to any sort of harmony with the Bible have not been a high order of Christianity in thought or activities. You will not find many ardent evolutionists at the same time ardent Christians.

"No young person has ever gone to his teacher complaining of doubt and confusion in his mind because of any teaching of mine either public or private, but several have come to me filled with doubt and confusion by reason of teaching in the Junior ministers whose young people have come to them for help on this subject, and I know parents who have had to satisfy the minds of the young because of like teaching. Now

upon whose shoulders rests the responsibility?

"In my sermon I did not mention this fact nor did I refer to any teaching in the schools here. All this time, sirs, you have taught, and not a word has come from me in contradiction, for that is your business, but when I preach a sermon upon the subject the sermon is made an occasion of a review for the entire city and county, as well as a private 'review' before the class, most of whom did not hear the sermon. This could only be construed as a direct challenge for discussion of the subject, so I called upon the author and told him I am ready to discuss the question publicly, but he refused. Well, if any one of the four men signing the 'review' is unable to debate the question I now accept the challenge of all four of them. Men, come across with the goods or back down.

"I would now move that this self-appointed critic be made censor of the Santa Ana pulpits and by and by the process of evolution will put him in the cabinet as secretary of religious instruction.

"It is a direct insult that the writer of the 'review' should presume to know better than I just what my people need in the way of preaching and the First Christian church resents it.

"The 'review' presented not a single argument from start to finish, mere assumption, theories and opinions.

Calls It 'Opinions'

"Ye gods, have teachers of so-called science nothing to offer but mere opinions? The 'review' leaves the inference that there is such proof in abundance, but, if there is proof, why not present it fairly? If he were going to say anything or if he did not know the proofs he should inform himself before undertaking to inform the public.

"In this enlightened age it is not necessary to readjust Christianity because you happen to have an opinion. I am said to quote from 'The Death Bed of Darwin' and 'The Collapse of Evolution.' I did not know that such books were published and did not make a single quotation from either. So like most such assertions, that was a mistaking of facts. If I can not believe a man's statement, I am going to take his advice very seriously.

"As far as the 'six pillars' are concerned, we will show when the time for discussion comes that they do not prove evolution. Until the evolutionist can bridge the chasm between protozoa and the metazoan, his theory of embryology does not bring much comfort. The second pillar, paleontology, furnishes no evidence whatsoever as to the origin of the sub-kingdoms of animals. The oldest known fossils, representative of the different sub-kingdoms, are widely separated in structure, and paleontology has furnished no evidence whatever in the form of fossils to show that they had a common origin.

"Whether my friend derived his descent direct from an annelid worm or from a tunicate I do not know. I suggest that the degraded tunicate, grown fast to a rock by what was once his head, be relieved of the responsibility of having been his ancestor. He evidently saw that the worm was ahead of him in the race and he attempted suicide by jamming his head against a rock and holding it there 'till it finally grew fast and finally disappeared, while the worm lived on.

"The article abounds in the assertion that scientists have accepted the theory. No one questions that many of them have, but because many people and even scientists have accepted it does not prove anything. In 1860 the scientists of France had eighty theories which were claimed to refute the Bible but not one of them is held today. What we want is proof or facts.

"This is not a review of the 'review' of December 3. It is not an article on the question of evolution, nor is it an attack on what is being taught in our schools, but it is a protest against the arrogance of a man, who does not go to church of-

FAT FOLKS GET THIN

Reliable, Home Reduction System

Fat persons, particularly those from 10 to 60 pounds above normal weight, will be interested to learn that they might reduce weight and measurements while eating all they need and while really enjoying the becoming slender and healthier. Nothing strenuous; you want this!

This should be done by using Korein tablets, also following simple rules of Korein system that come with the box. Even a few days' treatment is likely to show a pleasing reduction. The step should become lighter, the flesh firmer, the skin smoother; work seems easier and actually pleasant. More buoyant feeling takes possession of the whole body and mind as superfluous fat disappears.

If you have tried various methods of fat reduction without real benefit you may now be very thankful at having found a genuine system. Look and feel younger! Aim to live longer and happier! Enjoy life! It is safe, rational and healthful. In each box there is a money-refund guarantee. Buy a small box of Korein tablets at any drug store, or send for free brochure, with many testimonials, to Korein Co., N.Y. 65, Station X, New York.

Universal Good Quality

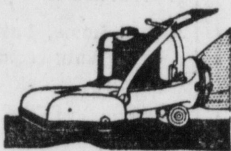

We not only offer the widest imaginable range of good ideas in desirable electrical goods but we offer lines of unquestionable quality.

Let us suggest that you take home one of our Universal Heating pads—rigid or flexible—to the elderly members of your household or to the member who likes to take a comforting warmth to bed. You'll find a thousand uses for it. All electrical appliances coming from this store are fully guaranteed.

A Hoover Is the Thing For Christmas

You want to buy the most satisfactory electric cleaner? Then take the trouble to investigate thoroughly. There is a big difference in electric cleaners. Learn how they differ and why. Take time to read up and thereby insure getting the right cleaner first.

THE HOOVER SAVES TIME, MONEY, HEALTH—IN MANY WAYS.

The cost of current to operate a Hoover averages but 1 1/2 cents per hour. The upkeep of a Hoover is far less than what you now pay for new brooms.

Money spent for having carpets cleaned by the carpet-cleaners, is saved by The Hoover. And floor coverings are kept clean and sanitary the entire year.

The Hoover greatly increases the life of rugs and carpets by shaking out and sweeping up the embedded GRIT which cuts off nap if allowed to remain. New carpets are more costly today. The Hoover saves money by thus increasing their life.

The Hoover makes the carpetings a safe playground for babies and little children. It swallows the disease-laden dirt, buttons, matches, pins, and strings—FIRST! One father says: "Baby's mother and I feel that the floor is not a safe place for him until it has been Hoovered."

House-cleaning bills are lessened. With a Hoover many women prefer to do their own work rather than pay help. Furthermore, good help is often impossible to find. You can secure help easier—or make poor help better—if you have a Hoover to lighten the work.

The Hoover greatly increases the life of curtains and draperies. Clouds of dust raised by your present methods cause them to dirty quickly. Laundering shortens their life. The Hoover raises no dust as it cleans. So curtains and draperies stay clean, need laundering more rarely, and last longer.

Dust breeds germs and disease, among them the germs of consumption. By not permitting this filth to remain in carpets, the family health is guarded.

The Hoover greatly increases the life of wallpaper, calomine, etc., which swept-up dust so quickly darkens and soils. For The Hoover cleans dustlessly.

The Hoover is an economy because it conserves house furnishings, saves money and protects health—but above all it is a work-saver that saves time.

The Hoover ends the backaches and nervous breakdowns which follow the present hard work of cleaning days. It makes "sweeping days" unnecessary. A few minutes of "Hoover-ing" each day keeps the dirt entirely away.

General Electric Type Suggestions

—In passing around the Christmas Gifts this year it would be wise to give just such things as we are now offering. These are the things that save the steps and add to the joy of living in Southern California. You are only living one life here—let's make it as pleasant as possible for our families and friends.

- Tea Service Sets.
- Coffee Urns.
- Chafing Dishes.
- Disc Table Stoves.
- Electric Toasters.
- Three Glow Radiators.
- Coffee Percolators.
- Aluminum Heating Pads.
- Lamp Socket Ovens.
- Radiant Grills.
- Grecian Urn Coffee Sets.
- Ovenette Round Grills.
- Immersion Heaters for homes, physicians, surgeons, dentists, etc., for sterilizing.
- New ideas in curling irons.
- Automobile engine heaters for cold mornings.
- LADIES' TRAVELING SETS, three-pound iron, attachment for heating curling tongs, Curling tongs and inverting stand.
- These are just a few of the good ideas our lines suggest for Christmas givers.

THE ROYAL HAIR DRYER

The Royal Hair Dryer makes shampooing safe in any sort of weather, winter or summer. Dries the heaviest head of hair without effort in a fraction of the time required in any other way. What about this for Christmas?

ELECTRIC VIBRATORS

For health and beauty and for the relief of headaches and other minor complaints a massage with a good electric vibrator will do wonders. These are comparatively inexpensive and are excellent gifts.

The Best Electric Washing Machines

In buying a washing machine it pays to look over the best makes carefully. Choose one that fits into your personal requirements. This store has in stock a number of different makes, all selected by us on their merits after much thought. We offer you your choice of all these better machines and we will be glad to demonstrate their respective merits and tell you the truth about each of them. Here is a fine present for the housewife and one that will be appreciated all the year.

BUY THESE ON EASY TERMS IF YOU LIKE.

Library Lamps and Silk Lamp Shades

We doubt if any store in the Southland will present greater values or better selections in Library Lamps, Floor Lamps and special ornamental shades than this stock of ours presents. A big electrical concern like ours is always able to get better selections and better prices. We do not confine our buying to two or three wholesale houses. Our market is the whole country.

In this department we offer you many fresh ideas in floor lamp standards, ornamental glass shades, Silk Art shades, library lamps complete, combinations and novelties.

These are always regarded highly as Christmas gifts. This season more than ever before we have made a special effort to bring you something out of the ordinary both in style and quality and we have done it at a price you can afford to pay.

We Advise Early Choosing. We Cannot Expect To Have a Complete Stock for Eleventh-Hour Shoppers.

YOU TOO WILL WANT AN EDISON ELECTRIC PORTABLE SEWING MACHINE

There are many thousand satisfied users of our electric household conveniences, all of whom bear testimony to the high merit of Edison products. That, coupled with the reasons below, why you will, and should, select the Edison Sewing Machine bearing the name Edison.

With the motor-driven Edison Sewing Machine you can sew as long as you want without strain—nothing to do but guide the cloth under the presser-foot. You sit directly in front of the needle—no awkward twisting of back and neck—and no eyestrain.

Sewing electrically—saves time and strength for other duties and recreation. Especially appreciated by the mother when sewing the "new" baby's clothes.

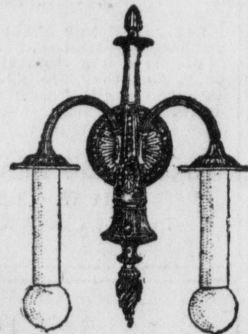

There isn't much difference in weight between the Edison Portable Sewing Machine and an ordinary traveling bag when packed. Easy to operate—easy to buy.

EASILY CONTROLLED—ABSOLUTELY SAFE

ELECTRIC FIXTURES

Great Stocks To Select From.

—The arrival of our new Electric Fixtures makes this line of ours far superior to any showing of the kind ever made in Santa Ana before. Here are new ideas in wall brackets, new chandeliers, new clusters and fresh styles in ceiling lights. Here are new adjustable shades for the library or den. Lamps in colors and tints. The new Adjusto-Lite—clamps on the bed, on a chair, writing desk, sewing machine—any place you want it. Dozens of new electric lighting ideas and every one of them practical for YOUR home or office and every one of them offered at a very reasonable price. It would be a mistake to buy electric fixtures of any kind without first seeing this elegant line. Please shop as early as possible.

Flashlights & Electric Lanterns

Every family should have a good flash light or two. Every rancher should have one of our new electric lanterns. These are the last word in portable electric lights and they're most reasonable in price. We suggest one for Christmas.
